7. ORANGE FOLK HURT IN 3 CAR COLLISIONS ON MAIN STREET

Fate Plays Strange Trick As
Week-end Crashes Maim
and Peril Autoists

BOY'S FOOT CRUSHED BY BIG AUTO TRUCK

2 Motors Hit on N. Main; One
Turns Turtle South of
Sugar Factory

Seven persons were injured, several of them severely, in automobile accidents occurring during the week end. The lives of a number of others were imperiled.

By a strange coincidence all the major accidents occurred on Main street, either north or south, and all the victims were either residents of Orange, or were visiting with Orange residents.

Four were injured and the lives of five others were endangered when two automobiles crashed at the corner of North Main street and Chapman avenue yesterday afternoon.

Another accident last night was added to the long list of those occurring on South Main street. Two men were injured, one severely, when the car in which they were riding turned turtle.

The amputation of a boy's foot may be made necessary because of the member having been crushed by a heavy truck on North Main street Saturday afternoon.

Hudson Six Hits Wagon
Mrs. L. Bryant, 111 Westlake, Los Angeles, proved herself a clever driver this morning when she saved herself and family from a bad accident by expert manipulation of the wheel of the Hudson Six she was driving. She was driving home from San Diego and when near the Henry Pankey place on the state highway below Irvine, came up behind a large wagon loaded with manure and driven by Grover Stroud. The driver of the wagon suddenly turned off the road into a field. The machine struck the wagon, doing considerable damage to the car. The machine was towed to the Davis garage here for repairs. The wagon was not damaged much.

Boy's Foot Is Crushed By Heavy Truck

Facing the possibility of his right foot having been amputated, Carl Raymond, 17, son of Mrs. H. Raymond, corner of East Chapman and Water streets, Orange, is at the County Hospital as the result of his foot having been crushed by the rear wheel of a truck driven by A. R. Todhunter, proprietor of the Orange Transfer & Ice Company.

The accident occurred near Nineteenth street, on North Main, at about 3 o'clock Saturday afternoon. Young Raymond, riding a bicycle, was unknown to Todhunter, holding on to the rear of the truck, which was traveling south on Main.

Todhunter saw the boy lying in the street, the bicycle smashed.

Todhunter stopped his truck and went back to the injured youth. He found that the wheel of the truck evidently had passed over the boy's right foot. How the boy lost his hold on the truck and was thrown under the heavy vehicle is unknown.

Young Raymond was taken to the County Hospital. Late today or tomorrow it will be determined whether or not the boy's foot will have to be amputated.

4 Injured, 5 Periled As Autos Crash

Four people were injured and the lives of five others were imperiled yesterday afternoon when automobiles driven by R. W. Jones of Orange and Wm. Batterman of Orange came together at 3 o'clock at the corner of Chapman avenue and North Main street, Orange. Mrs. Jones and Herman Post, who were in the Jones machine, are at the Santa Ana hospital suffering from slight cuts and severe bruises. H. Hoeter of San Francisco, and J. G. Theiss of Oakland, who were in the Batterman auto, were rendered unconscious for an hour or more and were treated by Dr. Domann of Orange at his office.

En Route to Hospital
The Jones party was en route to the county hospital to attend services at the county hospital conducted by Rev. Speer of the Presbyterian church, and was traveling west on Chapman. The Batterman machine was coming south on the continuation of Main street north of Chapman street, the two machines coming together at the intersection of the streets.

Mrs. Jones and Post were thrown to the pavement. They were thought to be seriously injured and were conveyed to the Santa Ana hospital in the ambulance at the county hospital. Dr. Burlew attended them and examination disclosed no serious injuries. Mrs. Jones has a scalp wound and bruises, but no broken bones.

(CONTINUED ON PAGE 8)

Register Makes Speed With Big S. F. Bomb Story

At six minutes after 2 o'clock Saturday afternoon occurred the explosion of the infernal machine which resulted in the deaths of six and the injuring of scores during San Francisco's big preparedness parade. At exactly 22 minutes past 3 o'clock, or a trifle more than an hour later, through the efficiency of the United Press Association, recognized as the liveliest afternoon news service in the United States, the press of the Register was running off its edition, giving all details available at the time.

What had to be done by the editorial and mechanical staff of the Register to bring this about forms an interesting commentary on modern afternoon newspaper methods.

At 2:30 Saturday afternoon the front page, or telegraph section, of the Register had been practically made up. The work was beginning to relax. The week's work was as good as done.

Ten minutes later all this was changed.

The telegraph editor, by long distance from the United Press office in Los Angeles, was taking down in newspaper "short hand," the story of the bomb outrage. A second later the foreman of the composing room was told that a "big story" had "broke."

This meant that the entire front page had practically to be "torn down" and "remade up" so as to provide space for the "story." In a trice the telegraph editor had written his story, his seven-column "screamer" and his "head."

While the linotype operators were throwing the "story" together the "heads" were set. A few swift but sure changes in type matter on the front page, a "lead" here and a "slug" there, a few twists of the quoin wrench, and the telegraph page was on its way down stairs, and on the press.

Making a newspaper is like playing a game of ball—nothing is ever definitely settled until the last inning has been played. Saturday afternoon's "inning" for the Register staff was the San Francisco story—it was the biggest news event of the day, and it came after "the game" for the day seemed to be at an end.

Of course Saturday's experience was not unusual; it was just a fair sample of the strenuousness and rapidity of gathering and disseminating the news.

GIANT ALLY RING IS TIGHTENING ON 2 FRONTS

BERLIN, July 24.—British troops failed to obtain any decisive foothold in their offensive along the Posieres front, the War Office today declared.

The Austrians withdrew in the region of Taraov and now face a strong Russian advance.

LONDON, July 24.—The iron ring of the allies on both the eastern and western fronts continues to tighten around the Germans.

The huge blasts of the big British guns today sent the British still farther on in the region of advance at Posieres, General Sir Douglas Haig reported. The fighting continues with advantage to the British.

Petrograd reported that the Russians have crashed through the German line south of Riga and shattered temporarily the Austrian resistance in Galicia.

Twenty-seven thousand Austrians have been captured in two days' fighting near Jablonitz.

The Turks are in full retreat before Grand Duke Nicholas in the region of Erzincan and in the Caucasus.

London Pleased
The successful resumption of Gen. Haig's massive infantry "push" within the short space of three days, after initial efforts had advanced the British line to within striking distance of the Germans' third lines, today brought great satisfaction to London.

Special dispatches mentioned terrific hand-to-hand fighting at Guillemont. Half of the village is in British hands. In the other half the Teutons, strongly dug in, are fighting desperately to hold on.

Paris today reported that there is extraordinary aerial activity on both sides of the French-German battle front.

JOE PATCHEN, PACER, TRYING TO COME BACK

DETROIT, Mich., July 24.—Joe Patchen III, prince of pacers, who established himself in the hall of racing fame by pacing the mile in 2:03 3/4, will try a comeback here today in the \$5,000 Chamber of Commerce stake, the pacing feature of the opening race of the Detroit grand circuit meeting. The ancient pacer will have some fast company. Billy Dale, winter favorite of the 2:06 class, and a star performer on the Ohio tracks last season, is an entry.

CAPTAIN M'BRIDE IS NO LONGER COMMANDER COMPANY L

Effort to Secure Waiver of
Disqualification of Santa
Ana Officer Fails

Nogales, Ariz., July 23, 1916.
To S. H. Finley,
Santa Ana, Cal.
Relieved of command of Company L today. Will return last of week.
J. L. M'BRIDE.

The above telegram received this morning brought the news here that the effort to secure a waiver for Captain McBride so that he might remain in command of Company L had failed.

The discharge of the captain was not unexpected here. When the examinations were given by the regular army officers, based upon the strictest kind of regulations, the captain was disqualified on account of defective eyesight.

Thirteen other members of Company L were disqualified. For them there was nothing left but to wait the time when they could come home. For the captain there was some hope, as it was known that the War Department could waive the disqualification of a commissioned officer so that he could stay in the service.

Recently a fight was made to retain a colonel and lieutenant colonel of a New York regiment. That fight failed, and it soon became apparent that Captain McBride's chances to remain in the service were slim. However, every effort that was possible to be made was made by his friends here and in Sacramento.

The vacancy will be filled by appointment by Governor Johnson. It is possible that command of the company will remain with First Lieutenant N. M. Holderman, who by reason of his rank became commander of the company upon the discharge of the captain. That is, in view of the possibility that the troops may be returned home in three or four months, the vacancy may not be filled.

On the other hand, the colonel of the regiment may ask that the vacancy be filled at once. If at home, the company would elect its captain. Since the company has been called into the federal service, however, the procedure calls for no election by the company.

The discharge of Captain McBride will be received with genuine regret by the members of his company and by the friends and relatives of members of the company. Captain McBride made an exceptionally good officer, and because of the confidence that they had in him parents of men of the company were sorry that it was necessary for him to leave. He will return here and take up his duties as county surveyor.

MAIL SEIZURES NOTE OF BRITAIN IS NOT A REPLY, U. S. STAND

WASHINGTON, July 24.—The State Department will immediately acknowledge the receipt of the mail seizures reply from Britain and will inform it that the reply is not considered as a response to the American note.

The Netherlands minister today called at the State Department to see Acting Secretary Polk regarding the rumor that the United States might send warships as convoys to American mail-carrying ships. The diplomat was informed that the rumor was without foundation.

Direct relation between British mail seizures and the blacklisting of American firms today was pointed out by State Department officials. The extreme irritation which the administration feels over England's delay in answering the mail note is partially because it was through the opening of mails that much blacklisting information was obtained.

"I believe that the British will withdraw either the whole or part of their black-list order," said Senator Hoke Smith.

APPEAL TO HOUSE OF LORDS IS DENIED TO SIR ROGER CASEMENT

LONDON, July 24.—The attorney general today refused a certificate which would enable Sir Roger Caseement, sentenced to death, to appeal direct to the House of Lords.

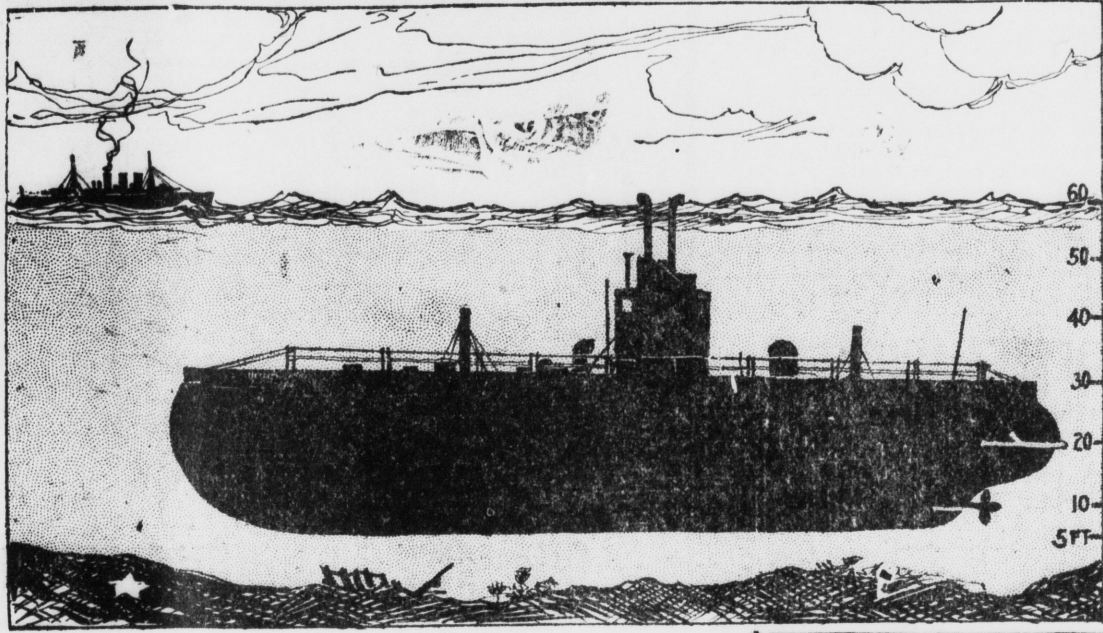

MT. TAMALPAIS BLAZE NOW UNDER CONTROL

MILL VALLEY, July 24.—A forest fire today, sweeping Mt. Tamalpais is under control of rangers, it is reported.

20 DIE AS FERRIES NEAR BERLIN COLLIDE

COPENHAGEN, July 24.—Twenty persons died when two ferry boats collided on the River Spree, near Berlin, yesterday, it was today reported here.

THE supreme test of the navigating ability of Captain Paul Koenig and the success of the German merchant submarine Deutschland will come on his trip out the mouth of Chesapeake Bay from Baltimore. British warships are hovering off the three-mile limit beyond Capes Henry and Charles. He must submerge before he reaches that line else he will be sunk. But at the line there are only sixty feet of water. The depth of the Deutschland from superstructure to keel is forty feet, and that means that the periscopes, wireless and other masts must be taken down so they will not show above the surface of the water. In sixty feet of water the Deutschland will have ten feet above her and ten feet beneath her at the deepest part of the channel. Some navigators believe she will approach the three mile limit and then rest on the bottom till darkness. At night she may be able to go out with her periscopes a few feet above the waves. The lower picture is a map showing the course which will have to be taken.

British Admiralty Officially Denies Allies Have Captured Bremen, Sistership of Deutschland; Trade Diver Still In Port, Veiled In Mystery

LONDON, July 24.—It was today officially denied to the United Press Association that the British had captured the supersubmarine Bremen.

SHROUDED IN MYSTERY
BALTIMORE, July 24.—The dilatory, dare-devil, diver boat, Deutschland, today is still in port, dreaming of ocean-going mosquitoes. The dreams are more dire than the mosquitoes more ferocious than ever, but the facts about the German sea adventurer's home-ward voyage are shrouded carefully away and double-locked in the inner thoughts of the promoters of underwater traffic.

The Bremen is due, it is said, "at any time."

Governmental officials, after inspecting the wireless set aboard the Deutschland, said that the outfit met the requirements of the United States neutrality laws.

Fully loaded, the giant submarine took on water. Everything seems ready at last for the departure of the craft. The indications are that the boat really may leave soon.

Men connected with the Ocean Rhederer confessed that they are in the dark as to the present whereabouts of the Bremen. However, they pointed out that it might have found it expedient to remain submerged longer than the Deutschland.

SEA CLASH VICTORY BY BRITISH DENIED BY BERLIN ADMIRALTY

BERLIN, July 24.—"Our torpedo boats returned from a point close to the mouth of the Thames undamaged after Sunday's short engagement," said an official statement issued today.

LONDON, July 24.—Six German destroyers, either attempting to raid or to make a reconnaissance on the British coast, were put to flight in a running fight off Shouwen bank Saturday night and early Sunday, the Admiralty today announced. Two British seamen were wounded. The German destroyers were repeatedly hit, the statement said.

MOB VIOLENCE FEARED AS ATTACKER OF GIRL IS CAPTURED, JAILED

SAN JOSE, July 24.—Antone Romano, suspected of kidnapping and assaulting Alva Berry, a 12-year-old Oakland girl at Coyote, today, was placed in the county jail here for fear of violence on the part of Coyote residents.

The girl was carried away at 1 o'clock this morning from her sleeping porch on the ranch of her grandfather, E. E. Peepin, into an orchard a mile distant, and then, after misadventure, returned to near the ranch house.

The girl identified Romano.

TRACTOR USE TAUGHT FARMERS IN ST. LOUIS

ST. LOUIS, July 24.—Farmers will see the latest improved farming machines in action on a 200-acre plot in St. Louis county for five days beginning July 31, when the National Tractor Demonstration begins. The demonstration is an educational campaign directed by the National Tractor Farming Association.

Hundreds of gasoline and kerosene farming implements will plow, harrow and otherwise cultivate the land to show the farmer who is hard hit because of the scarcity of farm hands and the high price of good horses, how he can go ahead anyhow.

U. S. TROOPS IN CLASH WITH MEXICANS; SHOTS EXCHANGED ON LINE

BROWN, N. M., July 24.—A skirmish between soldiers of Troop A, First Illinois Cavalry, occurred at 3 a. m. Twenty shots were exchanged.

FAVORABLE REPORT IS MADE IN SENATE ON CLARKE APPOINTMENT

WASHINGTON, July 24.—The Senate Judiciary Committee today reported favorably on the appointment of John E. Clarke as successor to Justice Charles E. Hughes.

JAMES WHITCOMB RILEY'S BODY LIES IN STATE

INDIANAPOLIS, July 24.—The body of James Whitcomb Riley, the Indiana poet, who died unexpectedly at 10:50 o'clock Saturday night at his home here, is lying in state at the Indiana Capitol from 3 p. m. until 9 p. m. today.

The hours were fixed especially with the view of providing a time when the working people and children, accompanied by parents, might view the body.

Governor S. M. Ralston, in a letter to Henry Eitel of this city, brother-in-law of the poet, asked that the body lie in state in the Capitol.

Present arrangements are for the funeral services to be held at the home Tuesday morning. These will be private and simple, in accordance with the wishes of the poet.

Thousands of persons passed silently past the Riley home here, while many close friends of the poet entered the home to view the body.

For several years Mr. Riley has spent his winters in Florida, where he went accompanied by members of his household. He returned only last May and "never felt better," as he expressed it on his arrival. Since that time he had been in excellent spirits and seemed unusually strong. Dr. McCulloch said.

Mr. Riley had been able to go to his publishers frequently and was on in his automobile every day, even as late as Friday. This combination of his spirits and bodily strength seemed convincing that he was far from being on the verge of a fatal illness.

Mr. Riley was born in 1853. One of the most novel celebrations in the country was held in his honor October 7, 1915, when "Riley Day" was observed by a banquet in Indianapolis. Schools of the country celebrated, more than 1,000,000 children taking part.

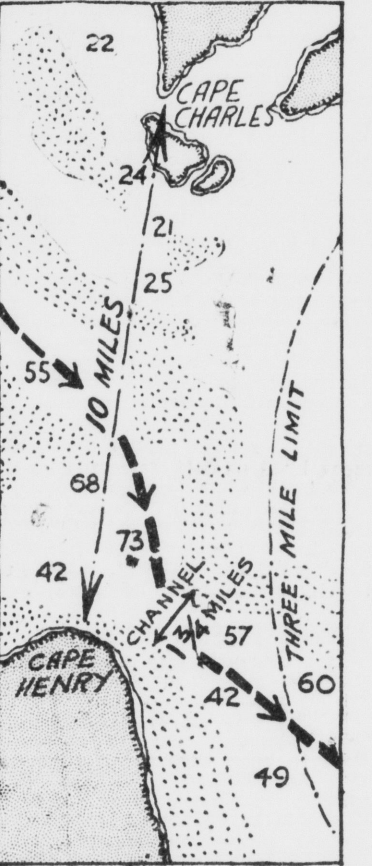

Of late years, Mr. Riley had not appeared at public gatherings to any great extent.

Mr. Riley never married. His nearest living relative is a sister, Mrs. Mary Payne of New York.

Wilson Honors Poet
WASHINGTON, July 24.—President Wilson today paid a tribute to the genius of the dead poet, James Whitcomb Riley.

FRANCE-RUSSIA AIR FLIGHT HALTS WHEN TEUTONS NAB FLIER

PARIS, July 24.—A French aviator, Antonio Marshall, who started an aeroplane flight from Nancy to Russia via Berlin, failed by sixty miles. He was captured by the Germans at Cholm, Poland, after dropping proclamations on Berlin, it became known today.

NEW HITCH IN WHITE- WELCH BATTLE BOBS UP AT WINDY CITY

CHICAGO, July 24.—Articles were signed late today for a twenty round championship bout between Charlie White and Freddie Welch on Labor Day at Colorado Springs.

CHICAGO, July 24.—Another hitch in the arrangements for the proposed Welch-White championship battle today bobbed up again. After Promoter Pitts of the Colorado Springs Athletic Club offered to give in to Charlie White's demands for \$4000, he discovered that White was scheduled to meet Benny Leonard at Brooklyn August 10. Freddie Welch's manager, Pollock, refused to call the match off.

LARGEST BRITISH WAR CREDIT TO DATE IS ASKED BY ASQUITH

LONDON, July 24.—Premier Asquith today moved in Commons for a vote of credit of £455,000,000, the largest sum the government has been asked for since the war began. The total since the beginning of the war is now more than £14,000,000,000.

"Prospects of battle are good; British generals are more than satisfied and they are confident; victory is assured," declared War Minister Lloyd George in Commons.

John Redmond was the center of a storm when he assailed Premier Asquith for his dilatory tactics in handling the Irish question.

GERMAN CROWN PRINCE FLIES IN AEROPLANE OVER LINES OF FOES

AMSTERDAM, July 24.—The German Crown Prince flew over the French lines in an aeroplane for fifteen minutes, it was today reported in Berlin.

ONLY 89 NEW CASES PARALYSIS IN N. Y.

NEW YORK, July 24.—The infantile paralysis epidemic was at its lowest yesterday, when eighty-nine new cases were reported.

TO PAY GUARDS' WIDOWS WASHINGTON, July 24.—Widows of National Guardsmen killed in service on the Mexican border must be paid the same gratuity of six months' salary as accorded to the widows of regulars, it was ruled today.

THREAT LETTERS TO S. F. PARADE BACKERS ARE REVEALED BY CHIEF WHITE

Six Weeks' Hunt For Senders
Of Missives Previous to
Defense March Bared

2 MORE BOMB VICTIMS ARE REPORTED DYING

Huge Police Dragnet Futile
In Securing Solitary
Tangible Clue

SAN FRANCISCO, July 24.—Spurred on by the offering by Mayor James Rolph, Jr., of \$5000, and an additional \$1000 by the brother of one of the victims, practically the entire police department organization today is engaged in an effort to track down the perpetrators of Saturday's bomb outrage at the corner of Steuart and Market streets, which took the lives of six and injured forty-four persons during San Francisco's preparedness parade.

Chief of Police White today let it become known that for more than six weeks he had been engaged in a search for persons who mailed threats to newspapers and those who promoted the preparedness parade. Most of the threats were on post cards and were signed by "the Employees' Liberty League and denounced those that were behind the parade plan.

Postal inspectors are associated with Chief White in this work, but their combined efforts have failed thus far. The threats began to come as soon as the first plans for the parade were announced. All were printed.

It is believed that the cards were the work of some one person, although many believe that more than one person was concerned in the outrage of Saturday.

Signed by "Exiles"
One letter which was sent to the newspapers was signed.

The determined exiles from the militaristic governments of Germany, Italy, Holland and the United States, Saturday plain clothes men, scattered throughout the crowd watching the parade, Chief White said today, "Several were within a hundred feet of the scene where the bomb exploded. I do not believe that the bomb was planted. I think the plotter intended to explode the bomb on the sidewalk. Apparently he intended to injure or kill those persons in the parade. Either he found his time too short or lost his nerve at the last minute."

Reports from the hospital where Miss Pearl Seeman and William Turnbull are confined were that they might not live throughout the day.

Mrs. Kinsley, Mrs. Lloyd Wymore and Howard Knapp also are in serious condition.

Three Theories
Hope of apprehending the bomb planters today centered on three theories:

(1) That the maker of the infernal machine was a member of an organized ring and will be betrayed by a fellow conspirator, seeking the money reward, or, if he worked his plan alone, that the fanatic will become emboldened to betray himself.

(2) That with virtually every San Franciscan on the side aiding the police, some individual will come forward with a valuable clue.

(3) That the dragnet set by the specially appointed bomb squad will obtain information through one of many avenues open to the police.

Not one definite clue is in the hands of the police. There is a mass of vague information, however.

A group of foreigners gathered in the Potrero district is being closely watched.

It was expected that others would be added to the list of dead today. At least two of the seriously wounded were between life and death all last night and early this morning.

William Taylor told the police he had spoken with a man who placed a suitcase at the street corner shortly before the explosion. He warned the man that his suitcase was likely to be stolen if left unguarded, he told the police. For his pains he was warned to let the suitcase alone and to keep away from it.

Find Two Witnesses
Two supposed witnesses have been found who declared that the suitcase was dropped from the roof of the building against which it exploded or that it was thrown through the air.

Henry Jones, a waterfront worker, told the police he was in a saloon just before the start of the parade, when a man he believed was a Mexican came in and asked if Jones were going to march in the procession. He left the saloon, declaring that he "was going to blow the procession up."

From each of these persons the police have descriptions.

Bomb Reconstructed
As part of the investigation every lodging house in the city is being canvassed.

The infernal machine, as partially reconstructed by the police, evidently consisted of a heavy piece of iron

(CONTINUED ON PAGE 5)

BIG SADDLEBACK CLIMB IS MADE BY 16 LOCAL BOY SCOUTS

Much Woodcraft Knowledge Is Gained By Young Men On Splendid Outing

Greatly benefited in many ways, having a greater knowledge of "how to get along" in the hills with but little equipment and bubbling over with good spirits as the result of their outing, sixteen members of the Boy Scouts of the Congregational church have returned here following an instructive jaunt to the summit of Saddleback.

The boys, traveling in three automobiles, driven by Rev. P. F. Schrock, A. J. Crookshank and B. Elwing, left Santa Ana at 1 o'clock Thursday afternoon for Joplin's ranch in the Trabuca canyon. Arrived at the ranch, a series of camping tests were in order, among which were the lighting of camp fires with only two matches and the cooking of meat and potatoes without the use of cooking utensils.

Friday morning, before dawn, the boys started up the long Saddleback trail. Soon the sun rose and before long the way up the mountain became blazing hot. The stronger aided the weaker boys during the climb. Three who won special commendation from Scout Master Elwing for their helping others who were becoming fatigued as a result of the tortuous climb and the heat were Arthur Perkins, Laurie Reeves and Frank Kellogg.

The boys first to reach the peak were William Elwing, Laurie Roehm and Frank Kellogg.

The trip back to the camp at Joplin's was begun at 1:30 Friday afternoon. By 5 o'clock all the boys were in camp, tired but happy.

Saturday morning a number of scout tests were held near camp. Arthur Reeves successfully passed a severe test in signaling with smoke.

Perkins and Elwing were successful in going through an especially difficult test in trailing. Two boys, dropping bits of paper at intervals, were trailed. Perkins and Elwing, climbing through a difficult path of brush, brambles and poison ivy for a distance of more than a mile, finally came upon their "quarry."

The outing was one of the most successful of its kind ever had by the local Boy Scout organization. All the boys are looking delighted with the

experience in woodcraft that they gained and are looking forward eagerly to the next jaunt.

Those in the party were Donald Caul, William Elwing, Charles Etchison, Frank Kellogg, Harold Kellogg, Dana Lamb, Franklin Nickay, Arthur Perkins, Laurie Roehm, Earl Simon, Newell Stevens, Horace Strong, Raymond Alderman, Wilbur Fipps, Leo Kimble, Ivan Kixger.

FARMERS IN POLITICS TO STOP GAMBLING ON U. S. FARM PRODUCTS

BISMARCK, N. D., July 24.—Farmers launched a nation-wide fight here today to stop gambling on grain and farm products in all stock markets of the United States.

The movement is backed by the Non-partisan Political League of North Dakota, whose membership has just swept the state of North Dakota clean, in the recent primaries. Every state candidate nominated was theirs. They were defeated everywhere.

Their fight was featured by three factors.

It was launched by farmers, yet was sponsored and enthusiastically supported by labor and union men of North Dakota's cities.

Although various farmers, granges and individual clubs form the party it remained a unit without splits or jealousies.

Its ranks and leaders were assembled without reference to religion, politics or nationality, but for the single object of the complete abolition of all gambling with grains and foods.

FIREMEN SHOW IS TOMORROW 'ART OF KEEPING STILL' IS SUBJECT AT UNION MEETING

The big benefit for the fire department is scheduled for tomorrow. The first show will start tomorrow afternoon, and the performance will be continuous from that hour until 11 o'clock tomorrow night.

It is a splendid show, given for a splendid purpose. Manager Hurlburt of the Lyric Theater was so well pleased with the splendid manner in which the fire company battled the fire that started in the operating room recently that he agreed to give the first day's receipts of the re-built theatre to the firemen for their emergency fund.

A lot of children, boys and girls between the ages of 10 and 16, are out selling tickets for the show. Fire Chief Jackson states that the prizes that have been offered the youngsters for selling tickets have been placed in Livesey's window for exhibition.

"Every child who is selling tickets should see me and make a final settlement by 5 o'clock tomorrow afternoon," said Chief Jackson today.

The chief also stated that women and children might do well to attend the afternoon performances instead of waiting for the evening, when the theater will probably be crowded.

ADVERTISING PAYS, IS LEARNED BY BANK MEN

MINNEAPOLIS, Minn., July 24.—Officials of the Ninth District Federal Reserve bank here today announced that they have learned it pays to advertise. Placing bonds of the United States in the hands of individual investors in denominations as low as \$100 has been accomplished through newspaper advertising.

"Such a step is in keeping with the best counsel of European nations," Chairman John H. Rich of the Federal Reserve bank said today.

Orange County Business College.

Dr. Jacobs, Santa Ana Painless Dentist, 102 1/2 East Fourth, Phone 253.

PROGRESS AND PROBLEMS

Have you problems? Is your progress as great as you wish? Don't you want a better education?

Two men have offered their son's services free to me for the educational advantages to be gained from familiarity with my business. The same opportunity comes to each of you to improve your faculties by comparing values in the well selected stock of our Groceries.

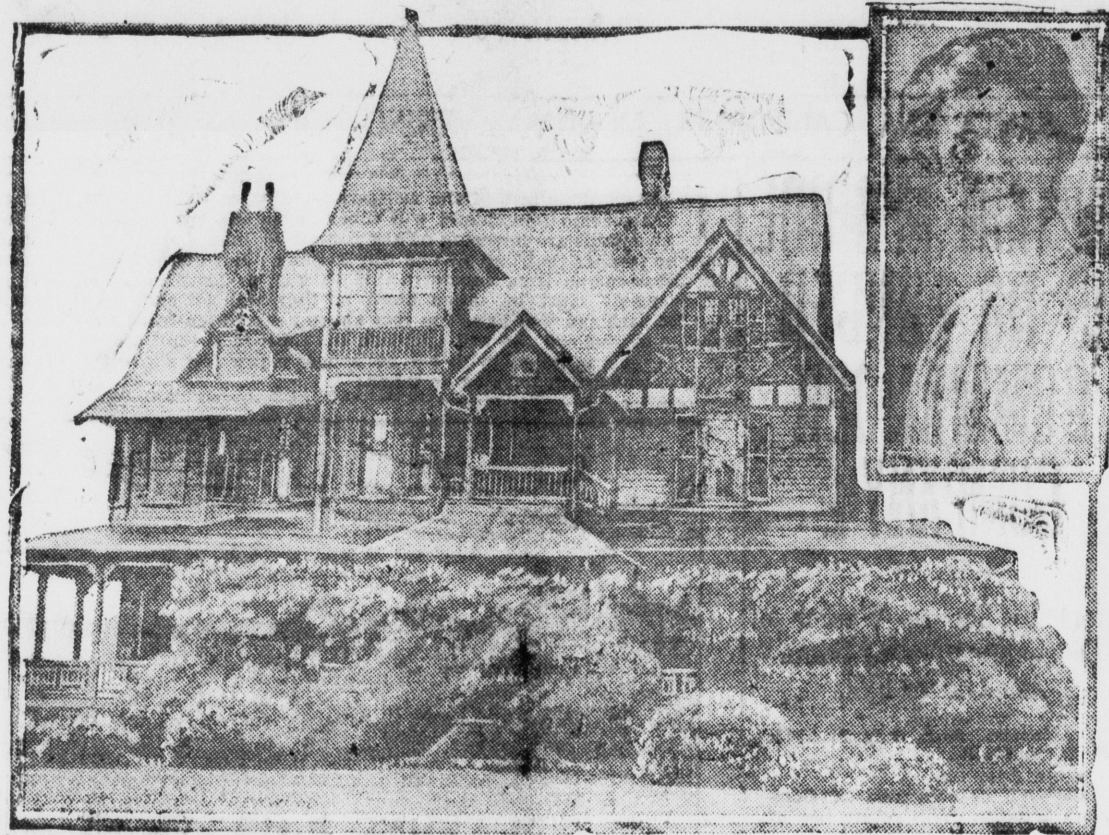

Men and women, boys and girls make more of a business of your shopping. Save your pennies for your bank account.

One small boy who does the family buying has saved \$7.00 in a short time. Another boy of three and a girl of two in the same family have saved two dollars apiece in six months. And all this by saving the pennies. At this rate their bank account will take them through college.

Don't you want to go to school? Save your pennies and see what they will do.

GERARD BROS. —Advertisement.

CHARLES E. HUGHES, Republican candidate for president, will spend the summer at Bridgehampton, L. I., in a comfortable home. The trip to New York city, where his headquarters will be, is short, and he will be able to go in every day if he chooses.

'ART OF KEEPING STILL' IS SUBJECT AT UNION MEETING

"The Art of Keeping Still" was the subject of the sermon preached last night at the union services by Rev. P. F. Schrock, pastor of the First Congregational Church.

"Commune with your own heart... and be STILL,"—Psalm 4:4.

"Be STILL, and know that I am God,"—Psalm 46:10.

"He leadeth me beside STILL waters,"—Psalm 23:2.

"Sometime ago there appeared in one of our popular magazines a most striking advertisement," said Rev. Schrock. "At the top of the advertisement there was a picture of a human hand clasping a revolver. It was aimed as if ready to fire. And beneath this hand in bold black type were these words, 'Awake and Nervous the Whole Night.' And then the writer went on to tell the story of the nights of agony through which many of our women pass. It is an agony of fear—fear of dangers real and imaginary. But the result is the same. 'Awake and nervous the whole night.' Now, of course, the moral of the story is very evident. Buy a revolver of this particular make and My Lady will be able to defend herself and thus spend the night in a sense of peaceful security."

Psychological
"The advertisement was effective because it was psychological. 'Awake and nervous the whole night,' is an accurate description of the lives of multitudes of people."

"Nervous diseases are the curse of mankind today. Nervous prostration is as fashionable as appendicitis was a few years ago. Many of our business men are physical wrecks by the time they are forty-five or fifty years of age. It is even more common with our fairer sex. Nervous mothers are bringing into life a generation of neurotic children. Insanity is increasing with alarming rapidity."

"There are many explanations for this condition. We say that this is a social age. We are living as parts of an intricate social organism. This intimate touch of life upon life causes more or less friction. And just as friction is the enemy of any machine so is it the enemy of the social machine. It is the cause of the wearing out of these individual parts. What we are needing is a better social adjustment and a correct lubrication. We have not yet discovered the correct Zerkoline or Valvoline for the social machine."

At Rapid Rate
"Some one else tells us that we are just living in a more rapid age. We are living at the automobile pace rather than the one horse shay rate and we must expect to wear out faster. But we are not content to wear out faster. And we are not willing to endure the pain of the wearing out process."

"A great cry is going up for relief from the strain and stress of our modern life. Behold the great multitudes that follow some new teacher of the way of life. No matter how illogical, how inconsistent the teaching may be it offers a way of escape many are willing to walk that way."

"All of us are desiring that thing and we wish there might be a commanding voice that could speak the peace be still to the winds and waves that beat upon us and free us from our distress. May it not be that in that word of the Master's to the storm of Galilee, 'Be still,' we have the very thing that men are needing today? The cure for the nervousness of today, be it individual or national, is not the revolver of any make, it is in armies and navies, but it is in cultivating the art of being still."

Poetic Foresight
"The poets of a people are frequently the best prophets and teachers of that people. It is the poet who is able to voice the cry of a people and it is the poet who can often answer that cry. No greater poets ever lived than the psalmists of ancient Israel."

"When we read them we make the startling discovery that even in that

time there was a great unrest of soul and a great cry of distress. And as the psalmist voices this cry he also tries to show the way out. And that way is the way of quietness."

"Be still, be still, he says over and over again. That is just the thing that we need to be able to do today—be still."

"Commune with your own heart and be still." That is almost a lost art—communing with one's own heart. When I was a boy skyscrapers and elevators were not as common as they now are.

"A neighbor, a dear old lady, went to a great city to visit a daughter. While there she was given the experience of riding in an elevator. In the elevator was a mirror and she saw her own reflection in it. She did not recognize it but thought it another person in the elevator. When they landed at their floor she said to her daughter, 'Nellie, who was that lady in there? She looked very familiar but I just couldn't remember her name.' Imagine her astonishment when she discovered that she had been looking at herself."

"Suppose it were possible for us to reflect our inner lives as we reflect the image of our bodies in a mirror; how many of us would be able to recognize ourselves? We are strangers to our own inner lives. We need some kind soul to introduce us to ourselves."

Some Discoveries
"But again we hear the answer that the conditions are such that we can't commune with our own hearts. There is this demand and that demand upon us and then there are always the movies with their artificial tragedies and passions to wear our souls and help us kill an idle hour. Be still and commune with your own heart."

"The average person can attend to but one thing at a time and most of us are average people. If we are to know ourselves we must take time to do it."

"And when we do we will make some startling discoveries. We will realize our worth as individuals; that we are more than parts of a social machine. And then looking down deep into our inner lives we will discover that we are needing a power higher and better and greater than we are. We will discover the great truth that Augustine of old proclaimed, 'Thou hast made us for thyself and we are restless till we repose in thee.'"

"That's the whole matter in a nutshell. 'Thou hast made us for thyself' and we are RESTLESS because we repose not in thee. Commune with thine own heart and be still and discover the need of thine heart and the cause of thy restlessness."

Finding God
"Knowing our need of God how shall we find Him? Again the Psalmist has an answer, 'Be still and know that I am God.' That is the lesson that Elijah learned upon Mt. Horeb. You remember that after the great contest between Elijah and the priests of Baal upon Mt. Carmel Elijah fled in fear of his life. He felt that he alone stood for the God of Israel. He came to Mt. Horeb where God had revealed himself to Moses of Old. Elijah stood upon that ancient mountain and there came a great wind which rent the mountain and brake in pieces the rock; but Jehovah was not in the wind."

"After the wind there came an earthquake; but Jehovah was not in the earthquake. After the earthquake there came a fire; but Jehovah was not in the fire. And after the fire there was the still small voice or as it is literally, the sound of gentle stillness. And then it was that Elijah covered his face with his mantle for he knew that Jehovah had spoken to him."

Sordid Viewpoint
"We also are looking for God in the wind and earthquake and fire but we find him not. 'Be still and know that I am God.' We don't keep still long enough to hear the sound of gentle stillness."

"Years ago there lived in the Catskills a man who loved the mountains. There was one view that he particularly loved. He came to it by a long winding mountain road. As one reached the summit there flashed before the eyes one of the most wonderful of God's pictures. There before you stretched the series of mountain peaks and the rough the valley at your feet ran the majestic Hudson on its way to the sea."

"This man had a friend from the West, the middle West, visiting him."

He took him upon the famous drive. As they wended their way up the mountain road they talked of various things. As they reached the summit he said not a word but stopped his team and reached over and touched his friend's knee. The guest said, 'Why, what are you stopping for?' He simply extended his arm toward that wonderful piece of God's handiwork. The westerner said, 'Great, isn't it? What do you think will be the price of pork this fall?' The price of pork made it impossible for that fellow to catch the inspiration of that wonder of nature."

"We smile but let us think for a minute. Many of us are letting things as sordid as pork not only blind us to the wonder of God's handiwork but blind and deaf to God himself."

For a Quiet Life
"When the Children of Israel were in the wilderness Moses pitched the Tent of Meeting out beyond the camp of the people and there he went when he would commune with the God of his people. Away from the turmoil and wrangling of the camp; in the place of quietness he received the rest and inspiration that could enable him to lead the people. There was a reason for the lesson that Jesus taught concerning prayer. 'When thou prayest enter into thine inner chamber and shut the door. Shut the door; shut out of your life the many, many voices and demands and listen to the sound of gentle stillness. But some one says, 'I cannot leave my cares and burdens. They are here and I must bear them.'"

"I am not advocating an ascetic life. I am pleading for a quiet life. He leadeth me beside the still waters—the waters of quietness. There are two kinds of quiet waters, the water of a pool and those of a great river moving on toward the sea."

Lives Like Waters
"Lives are like waters. Some are like the great river moving on toward the sea with mighty force and bearing the great burdens of countless boats as it goes. The river is quiet and a burden bearer because it is deep. Then there are lives like the shallow river that goes dashing and splashing down over the rocks, noisy because shallow. Then there are lives like the great ocean. It carries upon its shoulders the commerce of the world. Great swells roll over it but down deep it is quiet."

"There are also lives like the surf dashing upon the rock. No burden can be borne. The noise is deafening. 'I am pleading for lives that are like the mighty sea and like the great quiet rivers. Gardens bearing lives yet quiet lives. What we are needing is not to escape the burdens of life."

"It is to deepen our lives that we may bear our burdens with quietness. The way to deepen the life is to acquire the art of keeping still. Learn how to commune with your own heart and be still."

"Learn how to be still and in the stillness to hear the voice of God."

"As silently, as tenderly The dawn of peace descends on me. O, this is peace. I have no need Of friend to talk, of book to read; A dear companion here abides; Close to my thrilling heart he hides; The holy silence is his voice. I lie, and listen, and rejoice."

BELGIANS READY FOR MINIATURE VERDUN, IF WAR SHOULD BRING IT

LONDON, July 24.—Belgian troops are ready for a miniature battle of Verdun on their own front, if the fortunes of war bring it to them.

Visitors to the Belgian front are few but King Albert did not object to Sir Charles Wakefield, the Lord Mayor of London, looking over the Belgian lines.

Out-door life, "roughing it," fresh air and hardships have done to the Belgian soldiers what they have done to all other men in Europe, converted them into marvels of strength and health.

"In 1913 I was present at the Belgian maneuvers," says the Lord Mayor, "but since then the Belgian troops seem to have developed physically. They're bigger and stronger than the Belgian soldiers of 1913. And they are equipped and ready for whatever comes."

A DOCTOR'S REMEDY FOR COUGHS.
As a cure for coughs and colds Dr. Bell's Pine-Tar-Honey combines these remedies in just the right proportion to do the most good for summer coughs or colds. A trial will prove the value of this splendid cough medicine. Dr. Bell's Pine-Tar-Honey soothes the irritation, stops your cough, kills the cold germ and does you a world of good. A 25c bottle will more than convince you—it will stop your cough. At druggists.

Pay Your Bills By Check

Quite often we are called upon to return to a customer some cancelled check that proved that a bill had been paid. Had that account been settled by cash and the receipt lost or mislaid there would always have been a doubt in the payee's mind, even though he didn't insist on a second settlement.

Provide against any misunderstanding by opening a bank account, and then pay your bills by check.

HENEY IS SUED FOR SHARE OF YORBA LINDA CASE FEE

Farraher Says That Former Partner Collected Notes, Spent Money

An aftermath of an Orange county lawsuit showed up in the Los Angeles courts Saturday when Francis J. Heney, famed prosecutor and two years ago a candidate for United States senator, was made defendant in a suit filed in the superior court by his former law partner, J. F. Farraher, who claims that Heney owes him \$3779.91, representing fees collected for litigation involving the water rights of the residents of Yorba Linda, Orange county.

The action in which the attorney fees were secured was one in which residents of Yorba Linda brought suit against the Janss Investment Company for a settlement of water rights. Heney & Carr and Farraher represented the plaintiffs. Practically all of the work during the trial was done by Carr and Farraher. Heney appeared at the beginning of the trial, and was present when a compromise agreement was reached. Under the terms of the compromise it appeared that the attorneys for the property owners were to get \$32,000 for their services, declared to be the largest fee ever given for attorney services in this county. The suit in Los Angeles, however, involves the disposition of \$17,000 only.

The complaint says Heney and Farraher entered into a partnership arrangement October 1, 1913, and two-thirds of the fees collected were to go to Heney and one-third to Farraher.

The Yorba Linda litigation fee, it is asserted, amounted to \$17,000, of which \$2000 was paid in cash and \$15,000 in four promissory notes secured by mortgages on real estate. On November 1, 1914, the complaint alleges, Heney satisfied the mortgages and collected the notes. In November, 1915, Farraher asserts, he asked for the money due him as his share of the fees, and was informed by Heney that he had spent the money.

MILK GIVEN EMPLOYEES TO COMBAT SALOONS

MINNEAPOLIS, Minn., July 24.—The Minneapolis Steel and Machinery Company is giving its employees all the milk they want free to get them to stay out of saloons during their lunch hour. Nine hundred pints of milk are hauled to the company's 25-acre plant daily. The plan has succeeded, officers say.

SAN DIEGO TO HAVE A SUGAR FACTORY SOON

H. S. Hadsall, Promoter of
Companies Here, Is Organ-
izing Company to South

H. S. Hadsall, sugar beet company promoter, who promoted and organized the Southern California Sugar Company at Santa Ana and the Anaheim Sugar Company at Anaheim, is now organizing a sugar company in San Diego county.

The San Diego Union has the following:

"A proposition has been made by a prominent sugar company to the San Diego Sugar Company to remove and install the 1000-ton sugar mill of the latter company to San Diego, and the board of directors of the local company has the matter under consideration, according to a statement by H. S. Hadsall, yesterday.

"The secretary of the company, C. A. Bradley, expects to go east this week, with an expert sugar mill construction engineer, to examine the plant, and upon this report the San Diego Sugar Company will accept or reject the proposition.

"The mill will be much larger than the one which has been considered. Acreage conditions are said to be satisfactory in every way and it is intended to grow about 8000 acres the first year.

"A fine deposit of lime rock has been found near the city and convenient to the line of the S. D. & A. railway, the rock being suitable for sugar factory purposes, which will reduce the cost to the sugar company in freight.

"It also was announced that a local gun club which owns a large tract of land in Mexico tapped by the line of the S. D. & A. railway, has offered several thousand acres of bottom land to the company for sugar beet cultivation."

REPUBLICANISM STRONG UP IN INYO COUNTY

Riverside Press: Messrs. C. W. Craig of Riverside and F. W. Nutter of Redlands returned yesterday morning from Inyo county, whither they went a week ago in the interest of the congressional candidacy of R. C. Harbison. Both are well acquainted in the northern county and Mr. Craig was for years a publisher there and also register of the independent land office for a term of years.

They visited the big tungsten mine, perhaps the largest in the world, at Tungsten City, eight miles from Bishop, and made calls at nearly every post office in Inyo. They by no means neglected the main purpose of the trip, and report Republicanism a mighty active force in Inyo county, and that the Harbison vote there will be large both in the primary and in November, for the Inyo people take it for granted that the nominee of the San Diego conference will be formally nominated in the August primary. Mrs. Helen K. Doyle cast the Inyo vote, "Five for Harbison," for fifteen successive ballots, leading the roll call and the psychological effect of that element of strength helped greatly in the final victory, a fact that the San Bernardino delegation appreciated at full value.

'SUNSET DINNER' FOR BOOSTERS WEDNESDAY EVENING

A sunset dinner, and World's Fair fireworks.

Next Wednesday evening at 6:45 is the time, and Seal Beach is the place where Orange county boosters and their ladies will gather for what promises to be one of the best meetings the Associated Chambers of Commerce of Orange county has ever held.

The banquet will be held at Cafe Chantant and the menu prepared is something out of the ordinary. Business of importance to every section of the county will come up for consideration and in addition to this there will be a program of high class entertainment.

The Jewel City orchestra will render classics and singers who command \$100 a day will render vocal selections. A. A. Jenkins of Porterville, an expert on pruning, will make a talk on scientific pruning by special request.

A regular display of World's Fair fireworks will be one of the entertaining features, and the rays of forty-eight scintillators will add to the spectacular bombardment of the heavens.

Reports from Chambers of Commerce outside of Santa Ana indicate that the attendance from them will be large. As yet few Santa Anans have notified Secretary Metzgar of their intention to attend. There is no doubt but that there will be a large number from here. It is important, however, that the secretary should be notified, so that the committee in charge at Seal Beach may know how many to provide for. Secretary Metzgar should be notified not later than tomorrow night. Ladies are extended a cordial invitation to be present at the meeting.

FRENCH FLIER POULET BREAKS AERO RECORDS

PARIS, July 24.—By establishing a new altitude record of 19,530 feet with three passengers aboard and a new record of 18,530 feet with two passengers, Aviator Sergeant Etienne Poulet has just wrested the laurel from the Germans.

In establishing this new world's record for altitude with two passengers Poulet was obliged to fly in unfavorable weather, reaching a height of 18,530 feet, sufficient to lower the 18,100-foot record held by German Lieutenant Bien.

A few days later, Poulet was blessed with ideal weather and motor conditions. With three men aboard—M. Proust, weighing 145 pounds; M. Duche, 148 pounds, and M. Paillard, 125 pounds, together with 21 pounds of ballast, Poulet reached an altitude of 19,530 feet, taking the previous record of 17,500 feet from the German flyer, Sabatling.

This leaves the French in possession of all aviation records previously held by the Germans, it is said.

NEWS LETTER FROM HUNTINGTON BEACH

HUNTINGTON BEACH, July 22.—Contrary to the usual, natural gas is ahead of the scheduled time and was turned into the city mains Wednesday night.

The Huntington Beach people have been looking forward to the arrival of this gas for a long time. The J. O. C. class of girls of the Methodist church held a box social in Stewart's Hall. They took in \$15.25. There was also a free play given called the "Burglar." Good talent was shown and every one present enjoyed a pleasant evening.

Dr. F. E. Wilson is to move into the new building on Main street, which is being built by Carl Olson.

The Public Library has 115 new fiction books for adults and about 400 books of the same class for children.

W. L. Campbell, who works on the Newbert Protection ditch dredger had two fingers mashed on his right hand Wednesday.

George Lake has a new Ford for delivering his groceries.

Percy Avery, cousin of Francis McKiffness, has been spending a few days here with Francis. He expects to return to his home in Los Angeles Friday.

Mrs. P. O. Wells has just returned from a week's trip to Colton, where she went for the health of her youngest son, Dick. Dick is much better. He had the whooping cough, which is bothering many of the younger ones throughout this part of the county.

Mrs. Robert Heaney of Colton spent Thursday with Mrs. P. O. Wells.

Miss Irene Ingle went to Malibu to spend the week end with Hazel Knight, who is one of this year's graduates from Huntington Beach high school.

The Women's Missionary Circle of the First Baptist church met at the home of Miss Anne O'Keefe Wednesday afternoon. A large number were present and the meeting was felt to be a benefit to all.

Miss Margaret Osterhaus, who moved to Alpaugh, Calif., several months ago, is here to spend the summer.

Roy Labadie and wife, Curtis McCormick and wife, and Margaret French left Saturday for a ten days' trip to a cabin at Big Bear Lake.

Curtis W. Bolten, a former resident of this city, has just returned from Arizona. He is to start working at the Holly sugar factory and will make his home at the Hotel Evangeline.

Dr. Jacobs, Santa Ana Painless Dentist, 102 1/2 East Fourth. Phone 253.

Dr. Peryl B. Magill, Osteopath, room 12, Royalty Bldg. Pacific 956W.

LITTLE MARGARET BAKER, aged four, is the real secretary of war of the United States. Her daddy admits it. For he admits she is his boss, and there isn't anything short of treason he wouldn't do for her. Who wouldn't?

MARGARET BAKER

QUALITY A BIG FACTOR IN OIL VALUE INQUIRY

Over Twenty Per Cent of
Property Owners Against
Protection District

Today a number of superintendents and secretaries of oil companies with properties surrounding the Birch Oil Company property at Brea are before the Board of Equalization answering questions concerning outputs and values.

Last week the Birch Oil Company asked for a big reduction of assessment on the ground that it was assessed far too high in comparison to the properties of the Brea Canyon, the Fullerton, the Columbia and the Crown of the Valley Oil companies. The supervisors made a slight reduction upon the Birch assessment, and ordered other companies to come in to show cause why their assessments should not be raised.

Testimony taken this morning was largely to the effect that the testimony of the Birch witnesses as to the output of the Fullerton Oil Company wells was true so far as quantity was concerned. It was declared by today's witnesses, however, that there is a vast difference in the value of the oils and in the costs of production.

It was stated that the Birch oil is of high quality and worth a great deal more than the Fullerton oil. The question of cost of production was delayed into by Deputy District Attorney Eden, representing the equalizers. The witnesses said that oil that flows out of a well of its own free will is one thing and the cost of pumping it is another thing.

Both quality and cost of production are factors to be taken into consideration in deciding whether or not to raise the assessments of the oil companies.

W. L. Valentine and H. M. Marple were witnesses concerning the Fullerton Oil Company. G. Holterhoff, Jr., was called as a witness concerning the output of the Brea Canyon company.

Over Twenty Per Cent

H. H. Move, who was appointed by the Board of Supervisors to check over the remonstrances to the formation of two protection districts west of the Santa Ana river, has about completed his work. He will have a report ready for the hearing that is to be held tomorrow morning at 10 o'clock.

Move has found that about twenty per cent of the property owners in the district have filed remonstrances. It is stated that in acreage about fifty per cent of the area is against the district. According to a statement of the law as made last week, the acreage has nothing to do with the validity of the protest. The question concerns the number of property owners.

YANKEE FILMS CROWD OUT BRITISH PRODUCT

WASHINGTON, July 24.—American motion picture films are rapidly crowding out domestic films in Great Britain, according to a report from consular sources available here today.

"Picture theaters in Bristol," says the report, "use a great many more American films than any other kind, and their hold on the public favor seems to be constantly growing."

The report listed a number of Pacific Coast products which are being shipped in quantity to England by way of the Panama Canal. Among these were canned salmon, evaporated fruits, California redwood and barley.

As "vegetables and fruits, canned, dried, bottled and preserved" are on the list of prohibited imports of the recent British import restriction law, this traffic will suffer, says the report.

Take Blue Line Stage to Long Beach every hour.

FIRE CHIEFS OF COAST WILL BE GUESTS OF CITY

Fire chiefs of the Pacific Coast will be the guests of Santa Ana for one hour and forty minutes on the afternoon of August 26. They will be taken for an automobile trip.

The fire chiefs of the Pacific Coast will hold their annual convention at San Diego, August 21-25, and information that they would stop over here on their return was brought this morning in letters to Secretary Metzgar and Fire Chief Jackson from Fred A. Wood, Pacific Coast agent of the Gamewell Fire Alarm & Telegraph Company, who has the itinerary in charge.

Wood passed two or three weeks in Santa Ana when the local fire alarm system was installed. He was particularly charmed by the beauties of this section, and he recently suggested to Fire Chief Jackson that he believed arrangements could be made for the delegates to the San Diego convention to stop over here if an invitation was extended. The matter was taken up with Secretary Metzgar and the invitation was extended.

There will be 100 fire chiefs and friends in the delegation. Automobiles will be needed to take the fire fighters to the point of interest in this vicinity, and those who will offer their machines are requested to leave their names with the secretary.

All kinds of fruits will be accepted, too, as it is the desire to show the visitors a good time.

It will be a splendid opportunity to spread the gospel of prosperous Orange county, and local residents should co-operate with the Chamber of Commerce and fire company in giving the visitors opportunity to inspect the pretty groves and surroundings of Santa Ana and vicinity.

2 CALIFORNIA GIRLS WIN HONORS IN BIG ESSAY WRITING TEST

SACRAMENTO, July 24.—Margaret E. Buell of Santa Paula and Gladys E. Murphy of Napa, two California high school students, have won signal honors in a national essay writing contest. Fannie Fern Andrews of Boston, secretary of the American School Peace League, has just notified Superintendent Hyatt at Sacramento of the remarkable success of these two young ladies, who are seniors in the high schools of their respective towns.

These prizes, known as the Seaberry prizes, were offered to the high schools of the whole world and two of the three were captured by the California girls, Miss Buell winning the first and Miss Murphy the third. The announcement of the awards was made public at the annual meeting of the league in New York July 19. It is an annual event, but the Golden State has never won a place before.

The American School Peace League is a nation-wide organization, with ex-President Taft as its president and among its vice presidents such as Dr. Jordan, Commissioner Claxton, Jane Adams, Edith Chase Young, Joseph Swanwick. The committee of judges included President Johnson of the National Educational Association; Carroll G. Pearce of Milwaukee, and Edward F. Buchner of Johns Hopkins University.

TUSTIN PLAYERS AGAIN TROUCE OPPONENTS

The Tustin ball club is a real ball club. It is "there" with the proverbial bells. It meets its opponents in deadly combat and pretty nearly always vanquishes said opponents. Yesterday afternoon Mueller's club of Los Angeles was taken down the line by the Tustinites by a score of 12 to 2.

Turner and Arandel did most of the execution for the Tustin team, Turner scoring in the first frame and in the eighth and Arandel scoring in the first and in the third.

The seventh inning was the lucky inning for the Angelinos, but it wasn't lucky enough, they being able to amass only two lone tallies.

Becko Lan Franco dealt the twist-ers and hot ones from the mound for the Tustin nine. His offerings were much too much for Mueller's aggregation, as the score shows.

Following is the Tustin line-up and batting order:
Turner, cf; Arandel, 3b; Franklin, ss; Dan Lan Franco, 2b; Becko Lan Franco, p; Collar, 1b; Thompson, lf; Mathews, rf; Woodward, c.

SAILORMAN WHO BAKED BEANS 20 YEARS TELLS WAY TO BAKE 'EM O. K.

CLEVELAND, July 24.—Baked beans may be Boston's forte, but Pat Finnegan, cook on the naval training ship Dorothea, stationed here, knows a thing or two about that delicacy. He's been baking them for twenty years—for seventeen years he was cook on a U. S. battleship, and he prepared 124,960 gallons of baked beans.

Here's his recipe for beans: "Begin with the best navy beans; soak 'em one hour in cold water; then boil two hours slowly; put salt pork in while boiling; bake three hours in a slow oven, with plenty of molasses and a pinch of mustard. A whole onion adds a tasty flavor."

PERIL OF EPIDEMICS

When one reads in history of how great plagues like small pox used to sweep cities out of existence and devastate whole sections and countries, perhaps the biggest of the advances of modern science is suggested. Today an epidemic that carries off a hundred people in a single locality is unusual. Railroad stations are crowded with persons seeking places of safety for children, and people get very panicky.

Yet when a disease gets started, like the infant paralysis epidemic now raging in New York, there is every reason for the most serious concern. The peril of such a contagion is not exaggerated. A physician was speaking recently of his experience a few years ago in his home town, where this disease got a very considerable start. He is not a man given to over-caution, in fact is quite the opposite, a doctor who believes his patients should do things, that they should take chances, and is always optimistic that perils will be avoided. This doctor, with his hopeful temperament, went so far as to tell his wife and children to stay indoors every moment that they could. He felt the peril so keenly that he would have all social and amusement life stop until the disease could be put under control.

No disease takes a more pitiful toll of human life than this scourge now raging in New York. It takes the brightest and healthiest children, and in a few hours so withers vital elements of their nervous system that they are almost fortunate if a life of crippled existence is saved by a speedy and fatal end.

Whenever any such epidemic starts, the public owes it to itself to co-operate in the heartiest way with health authorities. The majority of people are so thoroughly frightened at contagious diseases nowadays, that they do thus co-operate much better than in any other aspect of civic life. Still there are always thoughtless persons, who should know better, who allow children to take part freely in all kinds of miscellaneous gatherings.

CHECKS WE CAN DO WITHOUT

The saloons and allied interests are printing on their checks, "There will be fewer of these checks in circulation, if prohibition is adopted."

To be sure—saloon checks. But there will be something infinitely better in circulation—the money which heretofore went into the saloon cash registers will go into butcher shop cash registers and dry-goods store registers. And the checks that will be in circulation from butcher shops, dry-goods stores and grocery stores will be based upon business which brings satisfaction and contentment into the home, not upon business that brings want, and misery, and despair.

Such checks are worth while. The checks of saloon-keeper and his allies represent the profits of business which brings no man good and many men harm. California will be the better off—as Oregon, Washington, Idaho, Arizona and Colorado are better off—when such checks are no longer issued. Such checks cost the state dearly.

EFFICIENCY IN DELIVERY SERVICE

The Register's policy is to maintain an efficient delivery service through its corps of carriers, not only in the city of Santa Ana, but in the outside towns where routes are maintained. To this end we ask our many patrons to co-operate with us by reporting any negligence on the part of carriers in the prompt delivery of the Register each evening. A special messenger service is conducted between the hours of 5:15 and 7:15 each evening for the convenience of our subscribers. If you do not receive your Register by 6:30 please phone Sunset 4, or Home 409, and a copy of the paper will be sent you immediately.

Montana, Kansas and Booze

(Colliers of July 22, 1916.)

Some time ago we referred to the Montana newspaper-advertising campaign promoted by the "Montana Commercial and Labor League" in the liquor interest. The "Montana Commercial and Labor League" is an old friend under a new mask. Kansas is the subject of its advertising story, and the "evils" of prohibition the burden of its song. A friend in Kansas sends us some facts in reply. On January 1, 1916, Kansas paid off the remainder of its bonded indebtedness and publicly burned its canceled bonds. At that time Governor Capper said:

Our per capita wealth of \$1630 is greater than that of any other state and twice as high as that of the United States as a whole. It gives us a total of \$2,884,624,600 of taxable wealth, an increase of \$79,000,000 the past year, and enables us to maintain a state tax rate of \$1.25 on a thousand, lower than that of any other state, with one exception. Our bank deposits of \$224,110,576 are the largest per capita of any state, an increase of \$23,000,000 in the year 1915. Our 74,000 automobiles give us one car to every sixth family, a record equaled by only two other states. One family out of every five has a telephone, the largest percentage of any state. Our farm products in 1915 were \$341,561,000. Our live stock is valued at \$310,655,000. We produced \$325,000,000 of manufactured products in 1915.

It is now in order for the "Montana Commercial and Labor League" (sic) to give the people of Montana some other horrible examples of moral and commercial decay under prohibition.

STRONG SUPPORT FOR GOVERNOR JOHNSON

The senatorial situation looks better for Governor Johnson every day. Judge Bordwell is going to "stick," and the Riverside Press says "Willis Booth has tied up with the notorious Frank Jordan and J. C. Needham is likely to enter the race." These are recent developments and they will all tend to make the governor a powerful contender for the Republican nomination.

Strong newspaper support all over the state is given to his candidacy as the following quotations will suggest: Fresno Republican: Hiram Johnson is the one outstanding national figure that California has produced; he is the only Californian whose election to the United States Senate would instantly place California in the front rank of the national councils; he is the one Californian whose residence is not Sacramento, nor San Francisco, nor Los Angeles, but the state of California; whose acquaintance with the personalities and interests of every locality in California is as intimate as is that of the residents of that locality; his record as governor of California is precisely like the records which elevated Governor Wilson to the presidency and Governor Hughes to the presidential nomination, except that Governor Johnson accomplished in California at least ten times as much as both these governors combined accomplished in their states.

Governor Johnson so far outranks in ability every aspirant who has been mentioned for nomination on any ticket that it would be an insult to the intelligence of the voters to assume that they regard him as in a class at all comparable with that of his rivals. He so far outstands them all in public reputation, both in California and in the nation that comparison is ridiculous and nobody makes it.

Imperial Valley Press: The announcement of the senatorial candidacy of Governor Johnson gives to the Republican party two able candidates of distinctive types. Willis H. Booth, previously announced, is a good specimen of the successful manufacturer who has also taken a prominent place in public affairs. It would be a difficult matter to find a better representative of large business interests than Mr. Booth, who will stand as the special representative of wealth.

It would be difficult to find a man further from the Booth type than Governor Johnson, whose whole public career has been based on human wel-

fare, and whose achievements, while not antagonistic to wealth, and while encouraging legitimate enterprises, have been most particularly directed to betterment of the condition of people of moderate or no means.

Throughout the state there will be a rally of big interests to the support of Mr. Booth, but in the modest home there will be recalled the many blessings of the Johnson state administration, and we do not hesitate to believe that at the primaries it will be found that there are more modest homes than there are of large business institutions.

Those who judge public sentiment by what they read in the millionaire dailies may honestly believe Governor Johnson has lost his grip on the hearts of the people of California. But if they will get out among people they will find that same faith in and admiration for Governor Johnson that in the past have piled up majorities for him unparalleled in the state.

Santa Barbara Press: Of the three candidates for United States senator to succeed John D. Works of California, the Press considers Hiram W. Johnson unquestionably the most available. From a narrow, sectional basis, a Southern California newspaper would be expected to endorse a Southern California aspirant for this position, but the Press is not strong for sectionalism, preferring to look to other qualities for the measure of fitness.

Hiram W. Johnson would be an able representative of the whole state. He knows California from end to end. He is partial to no county or community as against any other county or community. He has been a conscientious, energetic servant of the whole state as its governor; and because of his long experience in that capacity he has a much stronger claim than any other person possibly could have upon the office of senator.

Los Angeles Tribune: The people of this section look upon Governor Johnson as the ideal candidate for the United States Senate. By reason of his great ability, his rugged honesty, and his courage in fighting for things which are right, he will exert a tremendous influence upon national affairs and reflect great credit upon California.

Fortunate, indeed, are the people of this state that they have an opportunity to send to the United States Senate such a worthy representative of all that is best in our civic life as Hiram W. Johnson.

How Russia Organized and Bridged Disaster

BY WILLIAM PHILIP SIMMS (United Press Staff Correspondent.)

[Note: This is the first of the seven stories by William Philip Simms at Petrograd, telling in his vivid and clear cut style how the common people of Russia have begun the stupendous task of making that country into a 1916 model nation.]

PETROGRAD, June 12.—(By mail.) Slowly, like a giant getting under way, Russia, backed by her plain people, is gathering strength. Today, working for her, she has an army of them fifty million strong.

This is not sob-sister hysteria. It is truth.

The Russian war is the people's war. With their incalculable fortitude the people are backing up the army in a way peculiar to them and not to be found in any other country of Europe. In England and France for instance, the governments are co-operating with industrial corporations and bankers—to the exclusion of well-defined citizen groups—thus keeping the nation and the army supplied. In Russia the government and army also co-operate with these, but they

co-operate with an organized people, too, through non-political groups which have been formed all over the country—citizens' associations, co-operative societies, peasants' unions—and whose aim is but to serve Russia. Then there is a Central committee, composed of civilians, to co-ordinate the efforts of the groups and take the army's orders.

So some of the fifty millions are at the front, in uniform, under arms. Others are back of the lines drilling to go to the front. The rest are scattered all over the Russian Empire working at their jobs, big or little, but for the nation. They are farmers and merchants, tailors and chemists, bootmakers and doctors, druggists and nurses, seamstresses and carpenters, machinists and plain day laborers all mobilized just as effectively, so far as carrying on the war is concerned, as the foremost soldiers in the foremost trenches.

The citizen's organizations for aiding the nation and the army are literally hundreds in number, but the majority of these can be bunched un-

der one or the other four general names. Then there is the Municipality Union, grouping the work of Russian cities.

Next is the War Trade Committee. Lastly the Co-Operative Union, whose membership includes over 30,000,000 peoples, mostly peasants, and whose activities effect in one way or another more than half the population of the Russian Empire.

So it is putting it very conservatively to say that, counting soldiers and those backing up the soldiers, Russia has fifty million souls toiling to fetch her home a victory.

In order that the work of these organizations may clash as little as possible, there is a Central Committee sitting permanently, week days and Sunday, in a building to itself here in Petrograd. When the government has need of this or that for the army, or for refugees, or for its organization back of the fighting lines, it can and does call on the Central Committee for aid. The Central Committee, looking over the vast resources at its command, with its wires reaching out into the farthest corners of the Empire, sees at a glance what can be done and does it, quickly and efficiently.

There is not a single branch of human endeavor not at the beck and call of these citizen's organizations, and through them, available the Central Committee and the Government. All the sciences, arts, trades and occupations have been mobilized in this way. They are ever ready to provide anything from fresh milk for babies to high explosives for the army.

The whole world knows that Russia lacked sufficient munitions at the start of the war. So did the other allies. But the difference between Russia and them was this: They were great industrial countries and she was not.

Russia could not remedy this in a day. Nor even in a year. Germany had had for a long time practically a monopoly on manufactured articles, chemicals and so forth in Russia, and as former Premier Count Kokovtsov pointed out, this had proved a positive curse to the Empire. When the war came on, severing all relations with Russia and her former source of supplies, she felt a pinch.

The worst of this situation so far as Russia was concerned, was that it could not be quickly remedied. Depending on Germany for manufactured articles, she lacked machinery to make. Buying nearly all of her chemicals from Teutonic drummers, she could not immediately start manufacturing them herself. And so on.

Which brings us to this: The Russian people, through their organizations, have accomplished near-miracles, and are still accomplishing them, making up for past defects. Through their combined wits and resources, clear on down through to the furthest peasant of Siberia, they have bridged what otherwise might have been disaster.

The story of some of these citizen organizations, how they came into being, how they work and the extent of their utility for the public good, will be told in subsequent articles.

With Malice Toward None

By Henry James

Sir Edward Gray says that the Germans are not getting the truth about this war. Probably he is correct. In this deprivation the Germans stand on a plane with the rest of the world. With the clamping on of a censorship the truth, almost of necessity, ceased to meander and percolate. Not but that some truth is being told. There is lots of it. The difficulty is to identify and tag it. Doubtless there are correspondents aware of a large measure of truth, and wishful to put it across, but reading the result of their efforts, one does not know whether they have succeeded or failed.

On the other hand, there are correspondents who just blither at random. I have in mind one who writes from El Paso to give an analysis of the great offensive of the allies, and to state solemnly that failure of the movement is ordained. Perhaps it is, but who told him?

Discourtesy by mail is difficult to rebuke because one hesitates to carry on a quarrel by post.

When a business man declines to answer a civil letter, when he answers it by something branded as "dictated but not read" he is guilty of impoliteness. When his course is to return the civil letter without comment, his discourtesy is gross, and he is so far from being a gentleman that no gentleman needs to worry about his conduct.

Pronunciation An eastern paper wants to know whether to say apricots or ap-ricots in mentioning a popular fruit.

Out in California, where canneries handle the fruit by wholesale, it is customary to speak of a carload of "cots." Hope this information will relieve embarrassment.

It Came Back I sent a poem into the post, It fell to earth, and I'm almost Persuaded that that poem sped Where sat a man of ivory head.

A Difference The late J. J. Hill left \$100,000,000, and the late Hetty Green about the same.

Nobody ever thought of calling the lady an empire builder, though.

Classified The "bear that walks like a man" turns out to be of the grizzly variety, long in the reach and difficult to tame.

Creating Heroes Mary Roberts Rienhart has taken up the pen with which she writes fiction to resume creation of the sort of heroes pleasing to her.

The type that she found in political life did not fill the bill.

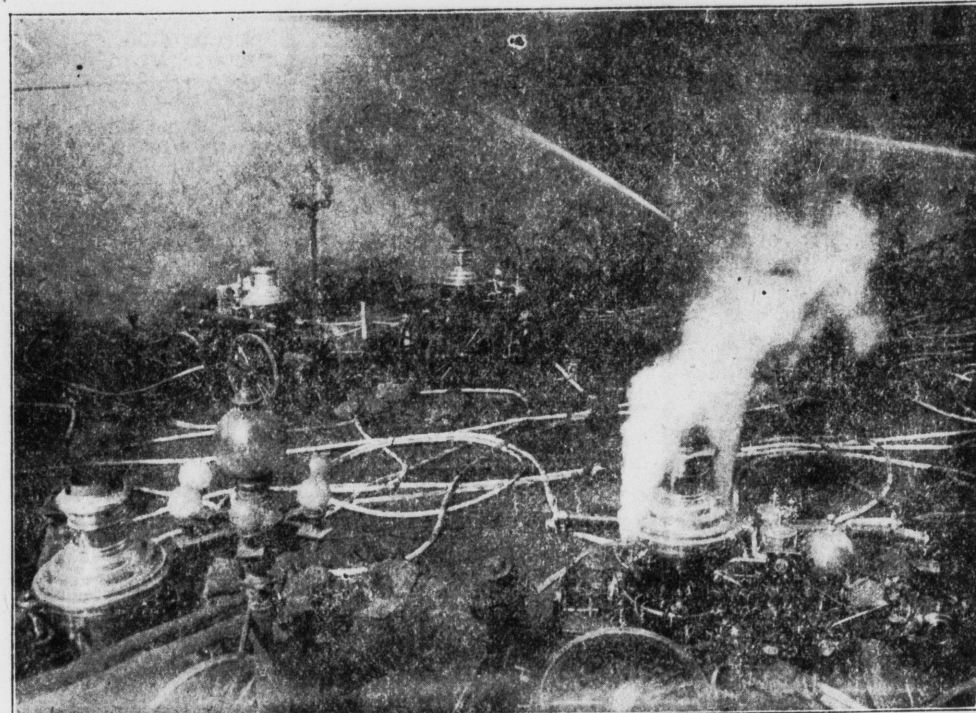

In the Sun American troops along the border have a place in the sun, and wiping their heated brows, wish that it was in the shade.

Americanism "Undiluted Americanism" is "straight" and not "blend." So remarks an eastern paragrapher. Can't agree with him.

On the glorious Fourth patriotic addresses were made to one Los Angeles gathering in English, Spanish, French,

Italian, Slavonian and Chinese. At the same time Japanese and German residents were having their separate celebrations. There's your blend, and it's all right at that.

Sandwiches

The summoning to his fathers of the eighth earl of Sandwich recalls that one of these, the fourth earl, invented the sandwich.

It also stirs memory to the thought of having observed the original sandwich still nobly doing its duty.

Justifiable

Because a New York millionaire kicked at paying 35 cents a box for strawberries, they are trying to make out that he was dotty, and overthrow his will.

Well, if he knew that such berries were sold in California at the same time at 5 cents a box this kicking was in token of a well-balanced mind.

A runaway germ is charged with causing girls to leave home. Probably brings a ladder to the window and whistles. Some germ.

WILL SLOAN'S LINIMENT RELIEVE PAIN?

Try it and see—one application will prove more than a column of claims. James S. Ferguson, Phila., Pa., writes: "I have had wonderful relief since I used Sloan's Liniment on my knees. To think after all these years of pain one application gave me relief. Many thanks for what your remedy has done for me." Don't keep on suffering, apply Sloan's Liniment where your pain is and notice how quick you get relief. Penetrates without rubbing. Buy it at any Drug Store, 25c.

SHOWER AND WEDDING

Interesting Wedding Yesterday Afternoon, Preceded By Shower Saturday

The First Methodist Church was the scene of a simple but interesting wedding yesterday at 4 o'clock, when Miss Valentine A. Heil, daughter of Mrs. S. E. Heil, and George Amos Harding, son of Mr. and Mrs. Henry Harding, all of Bolsa, were married.

The marriage was witnessed by about seventy-five relatives and friends, Rev. E. J. Inwood officiating and using the impressive double ring ceremony.

The bride was charming in her gown of rich cream brocade silk, worn by her grandmother sixty-five years ago when she was led to the altar. The skirt was draped with a cream lace overdress, caught up with orange blossoms and the quaint low-necked and short-sleeved bodice was trimmed with real lace worn by the bride's mother when she was a bride forty years ago. This quaintly lovely outfit was completed with a bridal veil with Dutch cap effect, caught with orange blossoms and a pearl necklace, also part of the grandmother's bridal trousseau. It would be strange if some of the girl friends of the bride were not a wee bit envious of her extraordinary good luck in having the use of all these handsome treasures.

The bridesmaid, Miss Ethel Heil, sister of the bride, wore a beautiful gown of pale blue crepe de chine with white lace and a picture hat of white felt. The groom was attended by his brother, Will Harding, and as the bridal party entered, Mrs. W. B. Snow played the wedding march.

As the bride and groom left the church, Mrs. Harding threw her bouquet of pink lilies and ferns and it was captured by Miss Ethel Wright. After the bride had changed her dress to one of king's blue silk jersey and donned a becoming hat of white felt with blue and white birds, the happy couple left in their automobile, amidst showers of rice and good wishes, for San Diego and other points.

Mr. and Mrs. Harding will reside at Bolsa, where the groom is a prosperous beet grower. His bride was a teacher in the Bolsa school and both are very popular in their large circle of friends. The church was beautifully decorated in Shasta daisies and ferns.

On Saturday evening Mrs. Beren Walker, sister of the bride, gave a very delightful miscellaneous shower in her honor, about forty guests being present. There were many elegant gifts of linen, embroidery, cut glass and many other beautiful tokens of love. Miss Ethel Heil presided at the punch bowl and after registering each guest was served with the delicious beverage. The entrance hall was beautiful with white flowers and ferns, the parlor in red geraniums and ferns, with many red bells, while the dining room was gay with brilliant sunflowers.

A telegram soon arrived and Mrs. Walker read a message from Mrs. S. E. Heil announcing that her daughter's marriage to George A. Harding would take place the next day at 4 o'clock at the First Methodist Church.

Mrs. Charles Johnson pleased with several vocal numbers and Miss Laura Harding played delightful piano numbers. Will Harding was prevailed upon to entertain the company with instrumental numbers.

Before the guests departed they were served with fruitade and cake and left wishing much happiness for the winsome honoree.

LAGUNA TRIP

Old Friends of Mrs. Joseph Yoch Enjoy Day With Her, Visit Miss Hilles

A number of old friends of Mrs. Joseph Yoch went down to Laguna yesterday to spend the day with her, arriving in time for a picnic lunch at noon. Long tables were arranged in the big dining room of the hotel and all sorts of good things to eat appeared.

Mrs. Yoch's daughters, Miss Josephine Yoch and Mrs. Redmond Barnett served hot coffee and delicious watermelon and peaches. Besides the Yoch family, there were present Mr. and Mrs. Charles Bevis, Miss Ruth Bevis, Mrs. C. M. Miller, Mr. and Mrs. Horace Fine, Charlotte and Cleora Fine, Mr. and Mrs. W. K. Robinson, Walter and Miss Anne Robinson, Mr. and Mrs. George W. Young, Helen, Wilbur and Margaret Young, Mrs. Olive Lopez, Alonzo and Isabel Lopez, Mrs. Louise Waite, Mr. and Mrs. John Rudolph, Misses Elizabeth, Agnes and Marie Rudolph and Mrs. Anna Owens.

After a pleasant chat with Mrs. Yoch the party went up on the cliffs to the flower-embowered home of Miss Anna Hilles, of whom Miss Anne Robinson is a pupil and through the courtesy of Miss Hilles spent a delightful hour looking at her beautiful paintings.

Miss Hilles is not only an accomplished artist but a most interesting talker and she explained her pictures charmingly, particularly those done in Holland, her models being mostly the women of that country.

One of the most beautiful of the larger paintings is Mintezuma mountain in Arizona, Miss Hilles having a unique experience in getting her sketches, as she had to live out on the desert in the camp of a goat herder and his wife and make long trips with mules to points of vantage where she could paint the mountain at sunset.

PLEASANT REUNION

Company of Old Friends and Neighbors Visit Saturday At Tummond Home

Mr. and Mrs. J. L. Tummond and family of 2613 North Main street enjoyed a pleasant evening Saturday with a company of twenty-two of their old friends and neighbors, when they resided near Anaheim.

The friends sent word that they would go to the Tummond home to have a "wienie" bake and accordingly after arrival all went to the creek bed nearby, where a big fire was soon kindled. With the wieners were served succotash, hot buns and coffee and an abundance of luscious fruits.

After the inner man had been filled, the company returned to the Tummond home where music and games were enjoyed. The home was prettily decorated with carnations and ferns.

Enjoyed Barbecue Supper

Mr. and Mrs. R. L. Bisby, Mr. and Mrs. J. Clyde Horton and four children, Mr. and Mrs. Fay Horton of Hanford and Miss Betsy Shelton formed a party, which enjoyed yesterday afternoon in the Santiago canyon at the fifth crossing.

Mr. Bisby, being an expert at barbecuing meat, performed that part in preparing the meal and there were hosts of other good things to eat, spread on the ground, "a la nature." The children of the party enjoyed a swim in the creek.

Company L Benefit

Another opportunity will be given Friday evening of this week whereby public-spirited citizens may show their loyalty to Company L by attending the benefit performance at Elks' hall. With the going of the soldier boys the main support of many families has been taken and the fund is to be divided among such families. The program is a varied one, and sure to please all who attend. Seats will be on sale Tuesday morning at Padgham's jewelry store; also at Ma-teer's drug store.

Celebrated Her Birthday

Mrs. Viktor Dreher of Los Angeles celebrated her seventy-fifth birthday Saturday at the home of her daughter, Mrs. J. Ralph.

That a happy old age may be hers is the sincere wish of her many friends.

BIRTHDAY DINNER

B. Uttley Surprised Saturday Evening With Delightful Event For Anniversary

When B. Uttley returned home after a strenuous day's work at his place of business last Saturday evening, he was confronted by his entire family, who had congregated at the old home-stead to celebrate his birthday.

He forgot for the time being his journey down the shady side of life when he threw aside his dignity and romped with his grandchildren. Covers were laid for Mr. and Mrs. Uttley, Mr. and Mrs. Will Adams of Tustin, Mr. and Mrs. F. C. Warren of Riverside, little Misses Marjorie and Eileen Adams.

A six-course chicken dinner was served at a beautifully appointed table. On Friday evening a number of Newport friends gave a surprise wienie bake for Mr. Uttley on the beach.

Children Attend Theater Free

Next Saturday afternoon the White Cross Drug Store will give a free matinee to children at the West End Theater. A splendid program for children has been arranged. Marguerite Clark in one of her best children's plays will be the feature, but there will be other good things.

All children up to the age of 15 years can get free tickets at the White Cross drug store, tomorrow's Register will explain how.

There will be two shows, beginning at 1:00 and 3:00 o'clock, so there will be good seats for all the young folks who secure tickets.

Her Fourteenth Birthday

Miss Isabel Lopez celebrated her fourteenth birthday happily on Saturday by taking a party of her friends to the West End Theater. After enjoying the show, the party was served with ice cream and cake at the Dragon.

Miss Isabel was surprised when a beautiful birthday cake, iced in pink and twinkling with the required number of tapers was brought in. She had to make strenuous efforts to blow out the candles. She received a number of nice gifts with which to remember the day.

Emma Sansom Chapter Meeting
The Emma Sansom Chapter, U. D. C., will meet with Mrs. Victor Montgomery, 210 East Walnut street, tomorrow at 2:30 p. m.

Personals

Mrs. Verne Bishop and little daughter, Virginia, of El Centro, are here for a visit with Mrs. Laura Cutler, Mrs. Bishop's mother.

Douglas McPhee of Santa Paula is here for a week's visit at the J. W. Taylor home.

C. S. Crookshank, cashier of the First National Bank, with his wife and two children, have returned from a trip to Osage, Iowa. They were absent six weeks.

Mr. and Mrs. C. M. Jordan and Mr. and Mrs. Peter Beissel left yesterday for Yosemite to spend two weeks. They are making the trip in Mr. Jordan's automobile.

Prof. and Mrs. B. F. Beswick and Miss Catherine Beswick were weekend guests of Mrs. George Magill at Laguna Beach. The party returned this afternoon. Dr. Perry Magill spent Saturday and Sunday at the beach.

Mr. and Mrs. W. L. Duggan, Miss Dorothy Duggan, of this city, and Mr. and Mrs. Roscoe Hewitt and baby of Los Angeles are spending a week at Laguna.

Miss Teresa McDonour, bookkeeper at the Register, spent the day in Los Angeles.

Mrs. George S. Briggs and Mrs. A. W. Ruten were among Santa Anans in the Angel City today.

Mr. and Mrs. Peter Wedell were among the morning P. E. passengers to Los Angeles.

Mrs. Ila Bishop spent the day in Los Angeles.

Mrs. Roy K. Bishop boarded an early morning car for Los Angeles.

L. M. Forcey and Marshal Keeler returned Saturday evening from a week's vacation passed at Big Bear Valley.

Elmer Preston and wife are home from Lemore, Cal., where they were guests of Mr. and Mrs. Lamar Ulm, former residents of this city. Mrs. Preston was there two weeks and Mr.

Children's Hot Weather Pajamettes Reduced to 45c

The children will surely appreciate these cool sleeping garments. It will be a great relief from their warm outing flannels.

Mothers will be quick to appreciate their careful workmanship—easy fit—and good quality.

Only a few left in ages 3 to 6 years; but plenty ages 7 to 10.

65c values at 45c.

See them in display cases.

Vandermaast & Son

Preston one week. The Ulms are located on an eighty acre ranch, and are doing well.

Mr. and Mrs. J. J. Van Wyk have returned from a five-weeks' trip to northwestern Iowa. They report crops looking well there. They first experienced very cold weather and before they left it was uncomfortably warm, so they are glad to be at home. They went east via the Salt Lake, Union Pacific and Northwestern railroads.

Mrs. C. W. Davies and Mrs. A. J. Swoffer have returned from Newport Beach, where they chaperoned a lively bunch of girls, including Dorothy Applegate of Hollywood, Gladys Swofter, Janie Jones, Frances Jones, Isabelle Collins, Gladys Davies, Ruth Baer and Little Kate Swoffer.

Miss Elizabeth Hoagland of Raymond, Washington, was the guest of Miss Mabel Harrison last Saturday. Miss Hoagland graduated at U. S. C. last June and will teach in the high school at Barstow, Cal., the coming year.

AMUSEMENTS

At the West End
The mother love is greatest. Could any other form of human affection equal the power and wonder of this great love?
The Moscoro-Paramount Photoplay at the West End Theater Tuesday and Wednesday featuring Edna Goodrich proves this.

When "Maddalena" in "The Making of Maddalena" hears that her own child, who was taken from her, has been stricken down by the plague, she is frantic. She who is voluntarily battling to save the lives of others feels an all-compelling response stir within her breast. She deserts her posts of duty. Hurrying to the bedside of the frail little sufferer she battles through the long watches of the night until the turning point is reached.

The glory that came with the realization of her victory ends this powerful story with a fitting climax.

At the Temple

"The Ne'er-Do-Well," filmed as a spectacular drama by the Selig Polyscope Company, is considered by many as Rex Beach's greatest story. In "The Ne'er-Do-Well," fascinating Panama scenery is shown, including the work of digging the Panama Canal, the interiors of old Spanish homes, glimpses of the interior of the tropical jungle, and odd and interesting nooks and corners. The cast in "The Ne'er-Do-Well" includes Kathlyn Williams, Eugene Bessner, Wheeler Oakman, Frank Clark and others. Almost the same cast of stars that added to the realism of "The Spoilers," Beach's other great story filmed by the Selig Company, appear in "The Ne'er-Do-Well." Charming Kathlyn Williams enacts the strongest character role in her career as Mrs. Stephen Cortlandt, the woman diplomat. The role of Kirk Anthony, the Ne'er-do-well, is enacted by Wheeler Oakman. This wonderful Selig production has been booked at the Temple Theater for Thursday and Friday evenings of this week, with matinees on same days.

Going to Los Angeles take Crown Stages every 1/2 hour, round trip \$1.00.

THIS is the first photograph of Mrs. Angier B. Duke and her little son, Angier B. Duke, Jr. The wedding of Mrs. Duke, then Cornelia Biddle of the Biddles of Philadelphia, with the son of the head of the Tobacco Trust, was a social event of much importance to persons interested in such matters.

MRS. ANGIER B. DUKE AND HER SON

HOW GUNNERS SHELL FOKKER PLANE SHOWN IN BRITISH WAR FILM

LONDON, July 24.—London movie patrons are having the biggest photographic thrill of the war here today. The latest series of official British war movie films shows work of mobile anti-aircraft guns at the front in actual fighting.

From "somewhere in France" is shown a tiny speck in the air as one of the much vaunted German Fokkers comes into focus. It grows larger and is "spotted" by the anti-aircraft gunners. They are soon in action, hurling shell after shell toward the enemy craft. Then in full view of the spectators the Fokker is hit. A second shot brings it crashing to earth in flames.

The official announcement for a feat like this would read: "Wednesday an enemy machine was brought down in our lines."

Seeing it produces the thrill that an official announcement lacks.

APPOINTMENT OF REV. JOHN M'CORT AS L. A. BISHOP IS NULLIFIED

PHILADELPHIA, July 24.—The appointment of Rev. John McCort as Bishop of Los Angeles, today was officially nullified. Bishop McCort expressed the desire to stay in Philadelphia.

SISAL SHORTAGE TO BOOST BINDER TWINE

ST. PAUL, Minn., July 24.—Binder twine will cost 3 cents a pound more during this harvest, because of the advanced price of sisal. C. J. Swenson, chairman of the state board of control said today. Minnesota is one of the nation's greatest twine producers.

WHEN YOU HAVE A COLD Give it attention, avoid exposure, be regular and careful of your diet, also commence taking Dr. King's New Discovery. It cures Croup, Whooping Cough, Sore Throat, Bronchitis, Asthma, Hay Fever, Eczema, Itch, Ringworm, Scabies, etc. It is a standard family cough syrup in use over 40 years. Get a bottle at once. Keep it in the house as a cold insurance. Sold at your druggist's.

Women and girls wanted at once at Taylor's Cannery.

For Long Beach take Crown Stages every hour.

Prop.

SECESSION IS SPREADING ON THE EAST LINE

Long Beach and Pomona Both Flirting With Whittier In a New County Proposal

When the Whittier people made their proposal to Orange County that Whittier be allowed to join Orange County in case Los Angeles tries to annex Whittier or in case a new county is formed that does not make Whittier its county seat, secession talk became rife all along the eastern border of Los Angeles county.

There seems to be no desire at either Long Beach or Pomona to become a part of Orange County, but each of those cities would be delighted to further any scheme that would result in making that city the county seat of a new county.

The following article from the Los Angeles Times this morning tells something of the sentiment in Whittier, Pomona and Long Beach. The statement concerning the appointment of a committee by the Associated Chambers of Commerce is not accurate. That committee was appointed for the purpose of acting with a committee from Whittier for the purpose of taking whatever steps are deemed advisable should Los Angeles

attempt to annex Whittier or attempt to force Whittier into a new county with Pomona as the county seat. It was not appointed for the purpose of inviting dissatisfied towns to join Orange County. At the Brea meeting Long Beach as a possible county seat was no more than barely mentioned.

The Los Angeles Times article reads as follows:

Whittier's Suitors

An increase in the number of her suitors apparently is making Whittier coquetish and this, too, in spite of the fact that she is the Quaker-pled town of Los Angeles county. When Whittier let it be known that she might desert Los Angeles county, her first love, and go over to Orange county, the proposed new counties of Pomona and Long Beach began flirting with her. Just now Whittier is hiding behind her fan and waiting developments.

The spirit of secession which arose in Whittier's heart is spreading to other towns in the eastern part of the county, it developed yesterday, notably Pomona, Norwalk, La Mirada, Los Nietos and Santa Fe Springs. At a meeting of the Associated Chambers of Commerce of Orange county, held recently at Brea, a reception committee was appointed to invite all the dissatisfied towns to come on over in Orange county and make themselves at home.

Fear Tax Increase

The prospect of Los Angeles city annexing Los Angeles county caused the wave of dissatisfaction to sweep along the eastern border of the county. The townspeople are afraid of higher taxes. J. G. Swain of Whittier expressed the sentiment of that town and its neighbors thus:

"We do not object especially to belonging to Los Angeles county as the county stands now, but we do most strenuously object to becoming a part of Los Angeles city. We don't care about helping the city to pay its big bills. Rather than become a voting precinct of Los Angeles city, give us Orange county every time."

Aubrey Wardman, president of the Whittier Chamber of Commerce, is chairman of the Annexation Committee. Whittier has a population of 7000, and the immediate district 10,000. The value of the property in that corner of the county runs well into the millions of dollars.

Pomona's Movement

W. L. Wright, president of the Pomona Chamber of Commerce and a banker and business man with large interests, is leading the secessionist movement in Pomona. Inspired with ambitions higher than those of Whittier, Pomona proposes to set up a little kingdom and become the capital of it.

Pomona's spirit of discontent is fostered principally by the citizens' inconvenience in having to travel such a long distance to court in Los Angeles.

"We are thirty-two miles from the courthouse," a Pomona citizen complained yesterday. "An average of ten of our citizens have to go to court in Los Angeles every day. It takes one and one-half hours to make the trip one way on the Pacific Electric. Thus it requires the better part of a day for one of our people to go to court to testify a few minutes in some trivial case. Our Chamber of Commerce a number of times has taken up the matter of establishing a branch of the Superior Court in Pomona, but the judges in Los Angeles always have thrown cold water on the project. It seems there is no way out for us but to form a new county and become the county seat. It certainly would be great to be able to attend court without having to leave town."

The Legal Machinery

Citizens of Whittier have conferred with County Counsel Hill on the legal procedure necessary for a town to follow in withdrawing from one county and joining another. He pointed out that such action would have to be authorized by a special act of the state legislature. Following is the section of the state constitution which governs the step contemplated by Whittier and her neighbors:

"The legislature by general and uniform laws, may provide for the alteration of county boundary lines and for the foundation of new counties, provided, however, that no new county shall be established which shall reduce any county to a population of less than 20,000; nor shall a new county be formed containing less population than 8000; nor shall any line thereof pass within five miles of the extreme boundary of the city or town in which the county seat of any county is situated. Every county which shall be enlarged or created from territory taken from another county or

THIS photograph shows that it might have been possible for a woman, or rather one of three women, to choose the next president of the United States. Mrs. Frank Lusk sat in the National Republican convention as a fully accredited delegate from Montana; Mrs. Abbie E. Krebs of San Francisco and Mrs. Cornelius Cole of Los Angeles had full voting power from the Republicans of California. There might have been just 494 delegates for one candidate for the presidential nomination. So one of the ladies would thus have had a chance to pick the candidate and maybe the next president.

HEAT FLASHES, DIZZY, NERVOUS

Mrs. Wynn Tells How Lydia E. Pinkham's Vegetable Compound Helped Her During Change of Life.

Richmond, Va.—"After taking seven bottles of Lydia E. Pinkham's Vegetable Compound I feel like a new woman. I always had a headache during the change of life and was also troubled with other bad feelings common at that time—dizzy spells, nervous feelings and heat flashes. Now I am in better health than I ever was and recommend your remedies to all my friends."

—Mrs. LENA WYNN, 2512 E. O Street, Richmond, Va. While Change of Life is a most critical period of a woman's existence, the annoying symptoms which accompany it may be controlled, and normal health restored by the timely use of Lydia E. Pinkham's Vegetable Compound.

Such warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness.

For these abnormal conditions do not fail to take Lydia E. Pinkham's Vegetable Compound.

Why "An-uric" is an INSURANCE Against Sudden Death!

SUFFERERS FROM BACKACHE, RHEUMATISM AND KIDNEY TROUBLE.

Before an Insurance Company will take a risk on your life the examining physician will test the urine and report whether you are a good risk. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or the twinges and pains of lumbago, rheumatism and gout. The urine is often cloudy, full of sediment, channels often get sore and sleep is disturbed two or three times a night. This is the time you should consult some physician of wide experience—such as Dr. Pierce, of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Send him 10 cents for sample package of his new discovery—"An-uric." Write him your symptoms and send a sample of urine for test. Experience has taught Dr. Pierce that "An-uric" is the most powerful agent in dissolving uric acid, as hot water melts sugar, besides being absolutely harmless and is endowed with other properties, for it preserves the kidneys in a healthy condition by thoroughly cleansing them. Being so many times more active than lithia, it clears the heart valves of any sandy substances which may clog them and checks the degeneration of the blood vessels, as well as regulating blood pressure. "An-uric" is a regular insurance and life-saver for all big meat eaters and those who deposit lime-salts in their joints. It can now be obtained of the best druggists in 50-cent packages.

Dr. Pierce's Pleasant Pellets for the liver and bowels have been favorably known for nearly 50 years.

TRUSTEE LANDS ON LATE HOUR PROPOSAL

SEAL BEACH, July 24.—The "lid" is still on at Seal Beach. Trustee Richards, at a meeting of the City Council complained of an all-night orgy at Anaheim Landing, lasting until 5 o'clock in the morning. The café men were ready to ask the council for a 2-o'clock closing law but the complaint was a bombshell and upset their plans.

It is said the party complained of was composed of employees of the cafes and after the closing hour they adjourned to celebrate after their own choice, and greatly disturbed the peace and quiet of the trustee and other residents.

As a result of the complaint, the city marshal was instructed to break up any similar meeting in the future. No damage is reported to the new bulkhead from the high tides of the past week. Work on the east end is about completed and finishes a solid protection wall nearly 5000 feet in length.

Burned By Alcohol

ORANGE, July 24.—Joe Brown, proprietor of the barber shop on West Chapman street, received painful but not serious burns Saturday.

While filling an alcohol lamp in preparation for the day's business, the liquid exploded, covering Brown's face, shoulders and arms with flames. Fortunately two men were near and assisted in extinguishing the flames before they had done any serious damage. Regardless of the injuries, Brown continued with the day's work.

YOUR BOWELS SHOULD MOVE ONCE A DAY

A free, easy movement of the bowels every day is a sign of good health. Dr. King's New Life Pills will give you a gentle laxative effect without griping and free your system of blood poisons, purify your blood, overcome constipation and have an excellent tonic effect on the entire system. Makes you feel like living. Only 25c at druggists.

MORAL CONDITIONS ARE BAD SAYS W. C. T. U. RESOLUTION

BY MRS. LEA WARREN

The quarterly executive meeting of the Orange County W. C. T. U. was held Friday at Huntington Beach. The ladies of Huntington Beach and decorated the M. E. Church beautifully with ferns and Shasta daisies.

The President, Mrs. Belle Rogers of Santa Ana, presided and Mrs. C. D. Hartwell of Huntington Beach led the devotional service. Reports of officers—superintendents and presidents—occupied the morning session.

Mrs. Hattie Young of Long Beach, the state recording secretary and assistant L. T. L. superintendent, was present and conducted the demonstration for young campaigners. Many children were present and heartily participated.

At the noon hour the Ladies' Aid Society of the Methodist Church served a splendid hot dinner at the church dining room.

Afternoon Session
The president called the meeting together at 1:15 and a splendid institute program was enjoyed. Mrs. Nellie Winslow of Santa Ana led the devotional service.

There was a very animated discussion of the conditions at Seal Beach, now that the new resort has brought the liquor traffic near dry territory, resulting in the adoption of the following resolution:

Resolved, That we view with alarm the lowering of the public moral ideal by the increasing number of cafes having liquor permits and where dancing is allowed with no supervision whatever; that we view with abhorrence moral conditions developing at some of the Seal Beach resorts, and we appeal to all patriotic people to help in every way possible to suppress this tendency to moral lawlessness; that we respectfully submit this to the good people of Orange county.

MRS. C. R. FURR, Huntington Beach, MRS. W. D. GRANGER, Orange, MRS. CARRIE FORD, Fullerton, Committee.

Miss Anna Hill of Huntington Beach gave a beautiful violin solo. Rev. F. G. Watson, pastor of the Richland Avenue Methodist Church of Santa Ana gave a splendid address on "The Glory of Womanhood." A solo by Mrs. Maude Winbiger, "We'll Vote Our California Dry," was written by a young man from Long Beach and dedicated to the Long Beach Union. A campaign school was conducted by Miss Tattie Young of Long Beach. A quartet of ladies from Huntington Beach gave some splendid music.

Rev. R. J. Coyne, pastor of the Methodist Church, gave an excellent address in closing and made an appeal to the ladies present who were not members of the W. C. T. U. to join at once and get into the ranks to help make California dry. Several members were added to the membership. The meeting closed by singing "God Be With You Till We Meet Again."

News From Co. L

NOGALES, Ariz., July 20.—Today, turned out to be a pretty warm one after a threatening night. The wind blew hard last night and preparations were made for a hard storm but it did not come. It did sprinkle a little, just enough to cool the air.

Last night there was a funeral in camp. No, there was no one killed or dead from fright, but a "dead soldier" was the subject. The Seventh Regiment Band of Pomona with Company of Los Angeles as chief mourners and "Bud" Rose of a Company as the preacher, paraded. The procession was formed at the parade ground just a little south of camp and proceeded up the main street past the headquarters to the burying ground, where the last sad rites were given to the "dead soldier." Taps were blown and the affair was all over.

It was one of the most comical things ever pulled off in a military camp. Nearly the whole regiment was in attendance.

This morning we had good drill under Captain McBride and his able staff of officers and non-commissioned officers. The men were drilled in the school of a soldier, school of a squad and company. This was kept up for three hours and the men returned to camp feeling ready for the shower baths and a good big meal. They were not disappointed in the latter, as the cook had prepared steaks, mashed potatoes, gravy, jams, beans, bread and ice cold lemonade.

"Slats" Edgar says that if the fellows don't quit bothering him when he is trying to write a letter there will be another funeral and it will not be a make-believe one at that. He says that it is hard enough to write under any circumstances without a bunch of guys bothering you.

Privates Frye and Sturdevant were the guests of Mr. and Mrs. H. R. Bristol, former Santa Anans, last night at dinner.

The remodeling of the kitchen is still going on. When it is finished it will be one of the finest kitchens in the regiment. The men working on it are "Bill" Graves, Earl and Louis King and Lee Newton.

Private W. R. Metz will no doubt receive a promotion as soon as there is a vacancy. This particular young man puts in all his spare time studying the drill manual.

Why Take A Gambler's Chance with Your Money

Don't you know that almond growing is one of the easiest, quickest, most profitable (if you select the right locality) orchard crops in the state of California?

Do you know that according to Government reports, our consumption of nuts is increasing 15 per cent per annum? That 85 per cent of the almonds we consume are imported from Spain, Italy and France?

That California produces 98% per cent of all the almonds produced in the United States? Do you know the almond territory is more limited in area than that of the English Walnut and that Paso Robles Almonds were awarded the Gold Medal and a Bronze Plate for quality at the St. Louis Exposition? Don't you know that the

TEMPLETON-PASO ROBLES district is being recognized as the coming almond district of the State? That many, many thousands of trees are being set out in this territory? In fact there is an almond boom there.

Would it interest you to know that young orchards there are producing \$50.00 per acre in their third year?

Let me tell you more about the almond, because you can't get the ALMOND STORY

IN A NUT SHELL! Then there are so many other interesting facts about the Templeton-Paso Robles country that you should know, that I am sure if you drop me a one cent postal with your name and address plainly written the booklet I will send you will give you much valuable information.

NOTICE INVITING BIDS

Santa Ana, Calif., July 18, 1916.

In pursuance of a resolution of the Board of Supervisors of the County of Orange, dated July 18, 1916, directing that notice be hereby given that the said Board will receive at its office at the Court House at Santa Ana, at or before the hour of 2 o'clock P. M. of August 2, 1916, sealed bids or proposals for the construction of a 200-foot bridge across the Santa Ana River, at the mouth of the said river, and in and to the said County of Orange.

The amount of the bond to be given to secure a faithful performance of the contract for said work shall be \$10,000.00, and an additional bond in an amount equal to 50 per cent of the contract price for said work shall be given to the payment of claims for any material or supplies furnished for the performance of the work contracted for, and for any work or labor, of any kind done thereon, and also will be required to furnish a certificate that he carries compensation insurance covering all his employees upon work to be done under contract which may be entered into between him and the said county for the building of said bridge.

Under these specifications the County of Orange will furnish the cement, f. o. b. cars Villa Park.

Copies will be furnished intending bidders upon application to the County Surveyor at said Court House.

The Board of Supervisors reserves the right to reject any and all bids.

By order of the Board of Supervisors of the County of Orange, State of California.

W. B. WILLIAMS, County Clerk.

HIGHER COURT TURNS IT OVER

Notice Received Here Shows
Decision to Be Against
Insurance Policy

The judgment of the Orange county superior court in the case of the Security Life Insurance Company against Lena M. Scott has been reversed by the appellate court. On November 24, 1911, Attorneys B. E. Tarver and C. R. Allen brought suit for the purpose of cancelling a \$1000 policy issued upon the life of Mary L. Young, the beneficiary being Lena M. Scott of Fullerton. The plaintiff alleged that at the time the policy was issued Mrs. Young was not yet over an attack of typhoid fever, and that a few months later she died under an operation for appendicitis, which the plaintiff alleged came on as the result of typhoid fever.

The defendant denied that Mrs. Young was in anything but good health when the policy was issued. On October 22, 1913, Judge Thomas gave judgment in favor of the defendant. An appeal was taken by the insurance company, and upon the appeal notice

DEEDS, NOT WORDS

Santa Ana People Have Absolute
Proof of Deeds At Home

It's not words but deeds that prove true merit.

The deeds of Doan's Kidney Pills, for Santa Ana kidney sufferers, have made their local reputation. Proof lies in the testimony of Santa Ana people.

J. W. Winslow, grocer, 608 East Washington Ave., Santa Ana, says: "I suffered from pains in my back and in the morning I had lameness and soreness in the small of my back, in fact, I ached all over. The action of my kidneys was irregular also. I had dizzy spells and everything appeared black before my eyes. I read about Doan's Kidney Pills and used them. They cured my back and regulated the action of my kidneys."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Winslow had. Foster-Milburn Co., Props., Buffalo, N. Y.—Advertisement.

has been received here showing judgment in the upper court to be in favor of the appellant.

Execution Returned

The sheriff's office has made a return of execution in the case of Dale & Company against W. J. McCordie, in which judgment of \$376 was entered for the plaintiff. The return shows a motor and transformer sold for \$100, which amount is applied on the judgment.

Recorder's Office

An abstract of judgment shows \$100.15 entered in Orange township in favor of Lydia D. Killefer against C. A. Westgate.

A contract is recorded from the Placentia-Richfield Union grammar school district to S. Hill & Son for a heating and ventilating plant in the new Placentia school house; contract price for plant, \$4935.

A bill of sale shows the transfer of a quick lunch stand at Balboa from H. E. Scull to Edward H. McKenzie. Another bill of sale shows the transfer of a poolroom and shooting gallery from C. J. Winkler to W. T. Ohwell.

Are Not Deputies

Notice has been filed revoking appointments of W. Grant Cook and H. D. Tuffree as deputy sheriffs.

Divorce Actions

Suit for divorce was brought today by Roscoe Conkle against Velda Conkle. Clyde Bishop is attorney for the plaintiff. The couple married in Fresno on Sept. 26, 1912, and the complaint alleges that Mrs. Conkle deserted the plaintiff in February, 1915.

A divorce action brought in Riverside county by James T. Strack against Sarepta Strack has been transferred to this county. The plaintiff alleges desertion and cruelty in that Mrs. Strack had him arrested for non-support. The defendant asks that the divorce be granted to her on the ground of desertion and non-support. T. S. Nightingale is attorney for the plaintiff, Clyde Bishop for the defendant.

Marriage Licenses

On July 22—George Valenzuela, 22, and Loreto Magano, 18, both of Talbert; Walter A. Larkin, 32, and Bessie A. Ogden, 26, both of Seattle; Tom Ruis, 26, and Rose M. Kobloth, 18, both of Los Angeles; George A. Harding, 24, and Valentine A. Heil, 24, both of Santa Ana; Manuel Carpi, 32, of Tropic, and Matilda C. Narvais, 25, of Los Angeles.

On July 24—Robert A. Brady, 19, and Mina M. Dunn, 18, both of Santa Ana.

IN THE JUSTICE COURT

WORDS, AND THEN ONE ASKS OTHER'S ARREST

Today Rosa Zerounian of Talbert swore to a complaint charging Mrs. Jennie E. Wells with disturbing the peace. It seems that there was a law suit in which the two women were opponents. That law suit concerned a road that Mrs. Wells said had been closed to her damage. The case went up on appeal. Friday Judge Thomas rendered a decision against Mrs. Wells. That same old road is credited with being responsible for some things that were said, which resulted in Mrs. Zerounian's visit to the office of the district attorney with her attorney, Clyde Bishop.

SOON CONTRACT ALISO BRIDGE ATEL TORO

Inability to Get Right Kind of
Rock Holding Back State
Highway Shoulders

It is probable that within the next two weeks the State Highway Commission will let a contract for the construction of a concrete bridge across the Aliso creek near El Toro. The bridge that was built there last summer was washed out during the heavy rains last winter. Since then a by-pass bridge has been in use.

A stronger bridge will be constructed this time, with more space for the stream to go through.

The foundation will be placed on bed-rock, which is fifteen feet under the surface.

The bridge across San Juan creek will not be re-built by the state until next spring. Money for that bridge will not be available before that time.

C. F. Spellmeyer, resident engineer for the state, has been delayed in completing the shoulders of the state highway between Anaheim and Fullerton because of inability to get the crushed rock that is specified for that kind of work. There is a crushed rock known as blue rock that is obtainable, but Spellmeyer states that the blue rock is nowhere near as good for the work as the rock specified. Spellmeyer stated today that in another week he expects to have plenty of rock so that he can quickly go ahead and finish the shoulders between Anaheim and Fullerton, after which he will turn his crew upon the building of much needed shoulders on the state highway between Tustin and Irvine.

HIST! THE SLOVANISKA PODPORUJICI MEETS

GALVESTON, Tex., July 24.—The Slovaniska Podporujici Jednota Statu Texas held its annual convention here today. It is a Slavonic benevolent organization.

THREAT LETTERS ARE BARED BY S. F. POLICE

[CONTINUED FROM PAGE 1]

pipe, six or eight inches in diameter, charged with nitro-toluol, nitro-glycerine or some similar high explosive. Bullets, slugs and various kinds of scrap metal, were the death-dealing missiles scattered broadcast by the force of the explosive. This is believed to have been set off by clock-work.

None of the various clues offered has as yet led to arrests. The only man taken into custody is Frank W. Josefson, a Finnish sailor, who was arrested shortly after the explosion for commending the act of the bomb maker, according to the police. There is nothing to connect him with the outrage.

Following is the list of names of persons killed and injured by the bomb outrage:

The dead: Mrs. H. E. Knapp, Alameda, Cal.; Dr. George Painter, Berkeley, O. H.; Lamborn, printer, Alameda, Cal.; George Lawlor, Mill Valley, Cal.; Arthur Nelson, 19, Larkspur, Cal.; Adam Fox, San Francisco.

Seriously injured: Howard E. Knapp, lacerations both legs and body; Mrs. Kingsley van Lee, Oakland, lacerations both legs, internal injuries; Harry Turnbull, retired manager the Family Club, San Francisco, fractured skull; Miss Pearl Seemann, 19, Oakland, leg blown off; Mrs. L. O. Wyomere, Oakland, leg blown off, other leg amputated; Henry J. Claussen, Alameda, right leg fractured, body lacerated and bruised.

4 SUITS OF CLOTHES TAKEN IN LIEU OF \$3

INDIANAPOLIS—William Devine, a farm laborer, explained in the criminal court that, being unable to collect \$3 from James Boyce, living near Blackville, he took four suits of clothes in payment. He admitted he was generous with himself for the suits were of excellent quality and appearance.

"I first put on one suit," he said, "and then I thought how much better it looked on me than it did on Boyce, so I took the others."

Judge Collins sentenced Devine to the penal farm for ninety days.

WORKMEN FIND SKULL OF PREHISTORIC SEAL

SANDUSKY, O.—Workmen excavating Railroad street recently found fifteen feet below the surface, the well preserved skull of what, it is believed, was a prehistoric animal. The fact that tusks protruded downward from the upper jaw, it is believed, shows that the skull was that of a seal or sealion of a species that may have one time have inhabited the great lakes region. The find will be turned over to Prof. E. L. Moseley, head of the science department of the state normal school at Bowling Green, for an investigation.

MANY AMERICAN AUTO TRUCKS USED IN RUSSIA

HEADQUARTERS OF THE RUSSIAN SEVENTH ARMY—American automobiles, auto trucks and motorcycles are to be found in great numbers all along the Russian front. At an aviation camp are stored dozens of motors and spare parts for aeroplanes—all American. Similarly at every point behind the front a profusion of products of various sorts testify to the activity of American manufacturers in grasping trade opportunities opened to them by the war.

MARIE PEARY, daughter of Admiral and Mrs. Robert E. Peary, has engaged in the study of aviation as a summer pastime. She and her mother are spending the hot months on the Maine coast, and Miss Peary is absorbing everything she can find on the subject of flying with the intent of taking a course in actual flying as soon as she has finished her preliminary work.

ANTELOPE VALLEY LAND SALES GOOD

Edwin J. Bowes, Jr., president of the Bowes Realty Company, reports a good demand for Antelope Valley property and that they have recently concluded, in spite of the dull conditions supposed to prevail generally, quite a number of sales.

Among the sales that they have recently concluded, are, 80 acres near the Roosevelt School House, to Ole O. and John O. Eggen, both ranchers from Hemet. Their purchase is surrounded on three sides by alfalfa ranches with stands that produce in the neighborhood of 12 tons of baled alfalfa of extra fine quality, to the acre. This land is valued at \$50 an acre. Since buying they have put down a well with a water life of about 25 feet.

Mr. E. H. Davis, a Chicago investor, has purchased 160 acres, which has a well producing a large amount of water, with a lift of approximately 20 feet. Soil conditions are adapted for the growing of sugar beets, alfalfa and beans. For this \$8000 was paid.

Mr. Wm. Petzold purchased 60 acres just east of Palmdale, near the Wilson Pear Orchard, and it will be improved with pear trees as soon as it can be cleared and fenced. This property is valued at \$3000. It is only 4 miles from Palmdale and in the midst of a large development.

Mr. Harvey M. Stoner of Ontario has bought 80 acres one mile west of the Southern Pacific Railroad main line tracks and near the new county boulevard which is now nearly completed. For this he paid \$4000 and will improve it for the purpose of raising pears and growing beans.

Miss Azile M. Stoner has just purchased the adjoining 80 acres at a cost of \$4500 and will improve it in the same manner and immediately start the erection of a house and put down a well.

The Antelope Farm Lands Co., of which Mr. Bowes is president, purchased from Mr. P. L. Budinger 160 acres east of the S. P. railroad, between Palmdale and Lancaster, for \$9600, same being in close proximity to one of Mr. E. T. Earl's pear orchards.

Mr. E. H. Davis also purchased 80 acres one-half mile east of the Fertig ranch and one and one-half miles northeast of Palmdale, for \$4000, as a speculation.

All of the above were cash transactions.

7 ORANGE FOLK HURT IN 3 CAR COLLISIONS

[CONTINUED FROM PAGE 1]

Post is suffering from painful bruises. Reys, Hoelzer and Preiss, who are attending the synod at Orange, sustained scalp wounds and bruises.

Both machines were badly wrecked. Batterman is an instructor in the German schools at Orange.

W. M. Milligan, 330 South Orange street, and Miss Cicely Haan, a teacher, who resides at the home of Jas. Fullerton, were the other occupants of the Jones machine. They were not hurt.

2 Hurt As Car Turtles On South Main Street

Forced to make a wide and sudden swerve when confronted by a buggy which is alleged to have been without lights, I. D. Sixen of Orange lost control of his automobile, the front wheels of the machine becoming bound, causing the car to turn over twice before landing in a ditch alongside the highway.

With Sixen was riding A. G. Nordeen, also of Orange. Sixen sustained a number of severe bruises of the shoulders. His back was badly wrenched. No bones were broken. Nordeen escaped with nothing more serious than several painful bruises.

The accident occurred at about 8 o'clock last night at a point about half a mile south of the Southern California Sugar Company's plant. Sixen was driving south on Main. The alleged unlighted vehicle loomed up ahead of Sixen suddenly. It was only through the quickest action that the driver of the automobile avoided hitting the buggy. Sixen averted a collision but in so doing caused his car to turn turtle.

Both men were thrown out of the automobile. When the car came to a stop after hurtling through the air it was right side up and headed in the opposite direction from which it had been traveling.

A wheel of Sixen's car was demolished, the windshield shattered and other damage done.

Sixen was taken to the Santa Ana Hospital where his injuries were attended to. Nordeen's injuries were such as to make it unnecessary for him to be taken to the hospital.

AUTOS HIT; NO INJURIES

Two cars were in collision at the corner of First and D streets, Tustin, about 9:30 last night. No one was injured. A Dodge car driven by a woman struck a stripped Westcott car driven by Wm. Dunkel of Los Angeles. The Dodge escaped without damage. The Westcott was sent to the Arrow garage with a broken wheel, bent frame and sprung axle.

NEWS FOR FILM FANS; PEANUT CROP IS O. K.

DALLAS, Tex., July 24.—Circuses, baseball and the movies may go ahead and plan to run next year. The peanut acreage in Texas this year is 276,000, which is expected to yield 8,210,000 bushels, it was learned here today.

CLODBURST DROWNS FIVE IN AUTOMOBILE

GUERNZY, Wyo., July 24.—The bodies of five persons who were drowned in a cloudburst last night, today were recovered. The creek bed was converted into an angry sea of tossing mud and water that swept an automobile party to destruction.
